

## 960 Liter Ultrasonic Cleaning Machine Precision Cleaning System With Washing Spray Stage

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: Skyemen
- Certification: CE ROHS
- Model Number: JP-2144G
- Minimum Order Quantity: 1sets
- Price: Negotiation
- Packaging Details: 1set/ wooden case
- Delivery Time: In Stock
- Payment Terms: Paypal / T/T / western Union
- Supply Ability: 600pcs per month

### Product Specification

- Product Name: Ultrasonic Cleaner
- Capacity: 960 Liter
- Ultrasonic Power: 7200W
- Ultrasonic Frequency: 28 / 40KHz
- Timer: 0-99min
- Feature: SUS304 / 316L Material
- Each Tank Size: 1200\*1000\*800mm
- Heating: 27kw
- Total Power: 34.2KW
- Water Pump: Customized
- Work Stage: First Ultrasonic Washing Second Spray Stage
- Highlight: **automotive ultrasonic cleaner, ultrasonic washing machine**

## Product Description

### 960 Liter Ultrasonic Cleaning Machine Precision Cleaning System With Washing Spray Stage

Skyemen double tank ultrasonic precision cleaning system widely use to maintenance cleaning of tool and module

Each unit is an independant module

Modules can be placed next to each other to form a line with washing and spray stage

Typical process consist of two step/tank modules: ultrasonic wash and spray

Tank dimension 1200\*1000\*800mm or are based on typical injection mould sizes

Cleaned parts are to be placed into tank either in a wash basket or hung on a lifting hook/holder

#### Specifications:

Ultrasonic Tank's working dimension (mm)	1200*1000*800(L*W*H)
Ultrasonic power	7200W
Tank's total capacity	960L/tank
Tank's material	SUS304 / SUS316
In-tank surface finishing	Hard-Cr Plating Treatment ( 20+ microns )
Housing's material	Stainless steel
Ultrasonic frequency	28kHz / 40kHz
Ultrasonic transducer	144pcs
Electronic generator	1800W *4PCS
Heater's (hot plate) power	27KW
Others	With Spraying tank

#### Description:

- Adjustable ultrasonic power
- Original BLT type transducer
- SUS 316L stainless steel tank
- Adaptable for continuous operation
- Adjustable thermo controller
- Adjustable ultrasonic power
- With separate control ultrasonic electronic generator
- Sweep mode control available
- Digital timer & heating control
- Boost mode& oil skimmer upon client's requirement
- Pressure pump and filter system are available

**Functions:**

JTS series single tank ultrasonic cleaner equipment system includes replaceable transducer box and generator. The transducer box and generator can be both build-in or separate but work together to operate ultrasonic cleaning process with transducer box immersible mounted in fluid tank, one side or both side or bottom mounted inside the tank. The number and placement of transducers is selected to give maximum results

in any parts cleaning tank with any cleaning load. Specification of tank dimension and transducer boxes is custom made available. Either for mould of parts cleaning can receive perfect cleaning efficiency. Stainless steel basket is optional.

**Skymen is a Chinese ultrasonic cleaning company, the largest ultrasonic cleaner manufacturer in the world.**

Industrial Ultrasonic Cleaners can Solve your Cleaning Challenges.

Ultrasonic technology is changing today's parts cleaning industry by making precision cleaning safer, faster, less expensive and more effective. Ultrasonic cleaners offer results far beyond traditional cleaning methods, for everything from carburetors to medical instruments. Non-toxic ultrasonic cleaning bubbles eradicate even microscopic grime in the tiniest crevices. This technology eliminates the need for harsh chemicals and hand cleaning.

Get precisely what you need.

Our industrial parts cleaning tanks vary in size and power to match your specific cleaning challenges – from large stainless steel tanks to small table top washers. They can be customized for unusually shaped parts, but chances are we have a unit that will do the job

We want you to see results.

Using Skymen ultrasonic systems, you'll improve the quality of your products, increase production and efficiency, and decrease your impact on the environment. By using our affordable water-based soaps and enzyme solutions instead of expensive chemicals and disposal, you'll save 70% or more in cleaning materials costs.
