

## Three Tanks Industrial Ultrasonic Cleaning System With Ultrasonic Washing Ringsing Drying

Our Product Introduction

### Basic Information

- Place of Origin: China
- Brand Name: Sky men
- Certification: CE ROHS
- Model Number: JP-3216GH
- Minimum Order Quantity: 1sets
- Price: Negotiation
- Packaging Details: 1set/ wooden case
- Delivery Time: In Stock
- Payment Terms: Paypal / T/T / western Union
- Supply Ability: 1000pcs per month

### Product Specification

- Product Name: Ultrasonic Cleaner
- Capacity: 540 Liter
- Ultrasonic Power: 5400W
- Ultrasonic Frequency: 28 / 40KHz
- Timer: 0-99min
- Feature: SUS304 / 316L Material
- Each Tank Size: 1000\*900\*600mm
- Heating: 18kw
- Total Power: 30KW
- Water Pump: Customized
- Work Stage: First Ultrasonic Washing Second Spray Stage Third Drying
- Highlight: **ultrasonic cleaning device, ultrasonic washing machine**

## Product Description

### Three Tanks Industrial Ultrasonic Cleaning System With Ultrasonic Washing Ringsing Drying

Skymer Three tank precision manufacturing industrial ultrasonic cleaning system widely use to PCB production process, component cleaning, anuminum mesh cleaning, mould injection cleaning

Each unit is an independant module

Modules can be placed next to each other to form a line with washing, spray stage, drying end

Typical process consist of three step/tank modules: ultrasonic wash , spray, drying

Tank dimension 1000\*900\*600mm or are based on typical injection mould sizes

Cleaned parts are to be placed into tank either in a wash basket or hung on a lifting hook/holder

**Three tanks precision ultrasonic cleaning system with ultrasonic washing ringsing drying**

#### Specifications:

Ultrasonic Tank's working dimension (mm)	1200*1000*800(L*W*H)
Ultrasonic power	7200W
Tank's total capacity	960L/tank
Tank's material	SUS304 / SUS316
In-tank surface finishing	Hard-Cr Plating Treatment ( 20+ microns )
Housing's material	Stainless steel
Ultrasonic frequency	28kHz / 40kHz
Ultrasonic transducer	144pcs
Electronic generator	1800W *4PCS
Heater's (hot plate) power	27KW
Others	With Spraying tank

#### Description:

Adjustable ultrasonic power  
 Original BLT type transducer  
 SUS 316L stainless steel tank  
 Adaptable for continuous operation  
 Adjustable thermo controller  
 Adjustable ultrasonic power  
 With separate control ultrasonic electronic generator  
 Sweep mode control available  
 Digital timer & heating control  
 Boost mode& oil skimmer upon client's requirement  
 Pressure pump and filter system are available

#### Functions:

JP series multi-tank ultrasonic cleaner equipment system includes replaceable transducer box and generator. The transducer box and generator can be both build-in or separate but work together to operate ultrasonic cleaning process with transducer box immersible mounted in fluid tank, one side or both side or bottom mounted inside the tank. The number and placement of transducers is selected to give maximum results in any parts cleaning tank with any cleaning load. Specification of tank dimension and transducer boxes is custom made available. Either for mould or parts cleaning can receive perfect cleaning efficiency. Stainless steel basket is optional.

#### **Skyman is a Chinese ultrasonic cleaning company, the largest ultrasonic cleaner manufacturer in the world.**

Industrial Ultrasonic Cleaners can Solve your Cleaning Challenges.

Ultrasonic technology is changing today's parts cleaning industry by making precision cleaning safer, faster, less expensive and more effective. Ultrasonic cleaners offer results far beyond traditional cleaning methods, for everything from carburetors to medical instruments. Non-toxic ultrasonic cleaning bubbles eradicate even microscopic grime in the tiniest crevices. This technology eliminates the need for harsh chemicals and hand cleaning.

Get precisely what you need.

Our industrial parts cleaning tanks vary in size and power to match your specific cleaning challenges – from large stainless steel tanks to small table top washers. They can be customized for unusually shaped parts, but chances are we have a unit that will do the job  
We want you to see results.

Using Skymen ultrasonic systems, you'll improve the quality of your products, increase production and efficiency, and decrease your impact on the environment. By using our affordable water-based soaps and enzyme solutions instead of expensive chemicals and disposal, you'll save 70% or more in cleaning materials costs.
