Product Description

Multi-function 38 Liter Ultrasonic Cleaning Machine for Medical Instruments

Four advantages of ultrasonic cleaning machine

The reason why the current affordable industrial ultrasonic cleaner can get more and more attention in many different workpiece cleaning methods is not only because it can better meet our high requirements and high standards for workpiece cleaning, but also because it has Lots of cleaning advantages.

1. Clean thoroughly

Compared with other manual or other cleaning methods, professional and reliable industrial ultrasonic cleaners have a very significant cleaning effect, and can completely and effectively clean each dead corner of the workpiece, so that it can truly remove the dead corners and hidden corners of complex workpieces. Cleaning requirements.

2. Batch cleaning

Whether it is a single workpiece with a complex structure or a large number of batches, we only need to put these workpieces in the cleaning liquid and ensure that all parts can contact the liquid, then the industrial ultrasonic cleaning machine can perform very efficient cleaning jobs.

3. Multifunctional cleaning

Quality-assured industrial ultrasonic cleaners can combine different solvents to achieve different cleaning effects, and can also meet different supporting production processes, such as dust removal, rust removal, oil removal, wax removal, or passivation, phosphating, ceramics And plating.

4. Energy saving and environmental protection.

Industrial ultrasonic cleaning machine can not only effectively reduce pollution and have a good environmental effect, but also can reduce the damage caused by toxic solvents to human beings. In addition, it is equipped with a cleaning cycle filtration system, so we can recycle and reuse the cleaning solvent, which is very meaningful for the cost of cleaning solvents, saving water resources and improving the environmental protection image of the company.

In summary, the currently popular industrial ultrasonic cleaners not only have the four advantages described above, there are many advantages that we need to know after we have used them ourselves. As a consumer at this moment, if you have doubts about the cleaning effect of an industrial ultrasonic cleaner, you may wish to experience the benefits of ultrasonic cleaning yourself.
