#### Skymen 30L bench top ultrasonic cleaner

30L ultrasonic cleaner has heating function 0-80°C ( 40~60 degrees Celsius temperature is good for cleaning), which can reduce the adhesion strength of oil and wax. Using the ultrasonic vibrations treatment method to improve cleaning efficiency, the powerful transducers built into the sonic cleaner machine. The cleaning frequency of 40KHz can remove stains on items in a few seconds without damaging the items. Widely used for medical apparatus, small carburetors, fuel injectors , guns bullets, brass, metal parts and jewelry.
