### **Skymen CLEAN TANK**

**HOW IT WORKS** Skymen Clean Tank operates on a simple load basket system. Results are immediately noticeable and all parts can be cleaned in less than 60 minutes. The tank is thermostatically controlled at approximately 70 degrees Celsius. Skymen Clean Safe detergent remains active for thirty days and only needs to be changed once a month. The detergent is biodegradable and is disposed of via the grease trap sewer drain. Skymen Clean Safe has a strong and standard version, the latter being suitable for cleaning aluminium items. **ITEMS TO CLEAN** Items that can be cleaned include: grills, gas cooking tops, hood filters, baking trays, fry baskets, pans, pots, oven racks and other stainless, aluminium or cast iron items

**BENEFITS** The Skymen Clean Tank System: 1. Will reduce labour costs, save dollars on chemicals and replacement parts, as well as save water. Far surpasses conventional cleaning methods and eliminates the use of caustic, resulting in a safer, more hygienic working environment and therefore better product. 2. Operates 24/7 with a service cycle interval of about 4 weeks. 3. Will not cause damage to the parent material. 4. Cleans range hood/extraction filters removing oil and grease thereby reducing the risk of fire. 5. Features the most user-friendly tank with all safety issues being taken care of, in line with stringent Occupational Health and Safety Standards. 6. Detergents are Biodegradable, Non Toxic, Non Corrosive and Environmentally friendly. 7. Is safe and easy to use. 8. Keeps kitchen equipment and utensils in optimum condition and thus provides for a longer life span. 9. Used to clean grills, stove tops/gas cooking rings, gastronomic trays, as well as pots and pans etc. 10. Eliminates the need for scrubbing, thus allowing staff to concentrate on other chores within the kitchen. 11. Cleans all stainless steel, cast iron and aluminium equipment. 12. Various tank sizes to meet the requirements of all establishments.
