0.8L Tank 60W ultrasonic Wave Cleaner 60 Mins For Coins Removing Dirt

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Skymen
- Certification: CE ROHS FCC
- Model Number: JP-008
- Minimum Order Quantity: 1 unit
- Price: Negotiation
- Packaging Details: 1unit per color box, 8 units per big carton
- Delivery Time: In Stock
- Supply Ability: 8000 pcs per month

Product Specification

- Application: Cleaning Coins
- Function: Ultrasonic Cleaning
- Basket: Available
- Tank Volume: 0.8L
- Transducer: 1pcs
- Ultrasonic Power: 35W
- Highlight: **60W Ultrasonic Wave Cleaner**, **0.8L Tank Ultrasonic Wave Cleaner**, **60 Mins SS Ultrasonic Bath**

Product Description

Ultrasonic Cleaner for Cleaning Coins Removing Dirt Ultrasonic Bath

One of the safest ways to clean ordinary collectible coins at home to use a commercially manufactured ultrasonic wave cleaner (or ultrasonic sound cleaner which uses low freaquency for turbulence and high frequency for cleaning). The cleaner produces high-frequency sound vibrations. not perceptible to the human ear. between about 20 000 and 10 000 000 cycles per second which are transferred to the containers via a transducer. These vibrations exert a very strona mechanical action: hundreds of implodina vacuum bubbles dislodge dirt without abrasion by this action; the cleaning fluid is forced into all the irregularities and the impurities are drawn out of them. At the same time, the metal surface is set into intense ibration so that corrosion and other foreign deposits are broken loose and separated.
Small-sized ultrasonic cleaners are used by many jewelry and watch firms, and larger machines are used for cleaning needles at tatoo shops. The ultrasonic cleaning method allows to accomplish a simultaneous chemical and mechanical treatment of maximum efficacy: cleaning occurs even deep in the metal and, therefore, practically in the smallest pores and indentations. The small ultrasonic cleaners are able to remove dirt, gunk, grime and other moderate deposits which have built up on the coins over long time. But small ultrasonic cleaners are useless on most hard deposits.

JP-008 product specification:

Ultrasonic frequency	40,000Hz
Material of tank	SUS304
Tank thickness	1mm
Capacity	0.8L
Timer	Digital control, 0~60 mins
Heater	No
Power supply type 1	AC 100~120V, 50/60Hz
Power supply type 2	AC 220~240V, 50/60Hz
Transducer q'ty	1pcs
Ultrasonic power	60W
Tank inner dimension	150*85*65mm
Unit dimension	178*110*130mm
Inner Packing size	235*175*200mm
Big carton for 12pcs	550*480*410mm for 8pcs
N.W.	1.1kg
G.W.	1.35kg
OEM	Support
Certificate	ISO9001:2008 & CE & RoHS
Lead time	3 days after payment

Same series machine with different capacity:

Model	Capacity (L)	Tank Size (L*W*H)mm	Ultrasonic Power (W)	Heating Power (W)	Frequency (KHz)
JP-008	0.8	150*85*65	35	0	40
JP-009	0.9	150*135*65	60	100	40
JP-010T	2	150*165*100	60	100	40
JP-020S	3.2	240*135*100	120	100	40
JP-030S	4.5	300*150*100	180	200	40
JP-031S	6.5	300*150*150	180	200	40
JP-040S	10	300*240*150	240	200	40
JP-060S	15	330*300*150	360	300	40
JP-080S	22	500*300*150	480	500	40
JP-100S	30	500*300*200	600	500	40
JP-120S	38	500*300*250	720	800	40
