

Semi Automatic Industrial Ultrasonic Cleaner Moving Lifting System 38L 200L 960L

Our Product Introduction

Basic Information

- Place of Origin: Shenzhen
- Brand Name: SkyMen
- Certification: CE/RoHS/ISO9001
- Model Number: JTM-4036GH
- Minimum Order Quantity: 1
- Price: usd 3,800-11,000/SET
- Packaging Details: Wooden Case
- Delivery Time: 7-10 days
- Payment Terms: Western Union, T/T, L/C, MoneyGram
- Supply Ability: 3000 PCS per month

Product Specification

- Tank Capacity: 38L
- Tank Size: 500*300*250mm
- Transducer: 36 Pcs
- Material: Stainless Steel SUS304/SUS316
- Timer: 1-99hours
- Heater: Room Temp~80°C Adjustable
- Ultrasonic Power: 1.8KW
- Heating Power: 6KW
- Highlight: adjustable Heater Industrial Ultrasonic Cleaner, Industrial Ultrasonic Cleaner 960L, Semi Automatic Industrial Ultrasonic Cleaner machine

Product Description

Semi automatic industrial ultrasonic cleaner with moving and lifting system

Description of Ultrasonic Cleaner

Ultrasonic cleaning is a modern, safe, efficient, economical and fastest method to effectively remove contaminants and stubborn deposits from complex geometries. The benefits of ultrasonic cleaning include deep cleaning of objects and eliminating the risk of injury or infection from manual cleaning.

An ultrasonic cleaner is a microprocessor-controlled device that uses ultrasound, or high-frequency sound waves, to clean jewelry and other delicate items. Ultrasonic cleaning is based on the cavitation effect caused by high-frequency ultrasonic vibration signals in the fluid. The expansion and rapid collapse of tiny air bubbles causes cavitation, which produces an effective cleaning action on the surface of the object being cleaned. In addition, the air bubbles are so small that they can penetrate even the smallest cracks, cleaning them thoroughly and continuously.

Function	Ultrasonic Cleaning + moving fun
Ultrasonic Frequency	28/40KHz
Tank Material	SUS304
Tank Capacity	38 Liter
Tank Size (LxWxH)	500*300*250mm
Transducer	36 pcs
Temperature setting	Room temp to 95°C adjustable
Power Supply	AC220v,50Hz
Heating Power	6000W
Ultrasonic Power	1800W
Water inlet/outlet	Yes

CLEANING EFFECT

Better cleaning when cleaning with detergent

About Skymen

Various business activities of Skymen Group have been carried out in an orderly manner and have achieved good business performance, which has been fully affirmed by relevant departments at all levels and all sectors of society. Base, ISO quality management system certificate, SGS certificate, GIC certificate, CE certificate, BSCI certificate, ROHS certificate, FCC certificate, PSE certificate, Reach certificate, sccp certificate, PAHS certificate, design patent certificate, utility model patent certificate and other national certificates . More than 50 provincial-level honorary qualifications and a number of provincial-level R&D projects are supported by the Provincial Department of Science and Technology, which promotes enterprises to continuously enhance their sense of political responsibility, achieve common prosperity, establish a global vision, seize new opportunities for global development, and enhance international competitiveness.

FAQ

May I ask which Optical glass can use ultrasonic cleaners?

Lens, prism, spectacle frame, precious metal decoration, optical fiber, liquid crystal LCD, TF

What are the benefits of using ultrasonic cleaners?

1. Clean integration

When using a medical ultrasonic cleaning machine, it is necessary to manually put in medical utensils and cleaning fluid, but after the cleaning machine is turned on, it can be cleaned intelligently and integratedly.

2. Protect the health and safety of medical personnel

Scalpels, glass slides, tweezers, etc. are inevitably sharp in medical equipment. If the equipment is stained with patient's blood, there will inevitably be the possibility of infection during manual cleaning. The use of medical ultrasonic cleaners can avoid manual cleaning and infection.

3. Better cleaning effect

Once the medicines or blood stains on the medical equipment are dry, it is difficult to clean it by hand. Even if there are no

stains on the surface, there will still be stubborn bacteria residues. The medical ultrasonic cleaner can produce a large amount in the cleaning solution when it is started. The tiny air bubbles that impact the medical appliance can also penetrate deep into the many gaps of the appliance. The cleaning effect produced by this ultrasonic cavitation is irreplaceable manually, and the medical appliance can be cleaned more thoroughly.

How about after sales services?

12 months warranty for SKYMEN ultrasonic cleaner. Any technical problem during warranty time, free replacement parts will be sent to your door. And technical support is also available after 1 year.

What are advantages of ultrasound over traditional cleaning methods?

- 1).minimizes the use of manual labor
- 2).makes cleaning and degreasing without the use of organic solvents
- 3).reaches every area of product and remove all types of dirt
- 4).shorten processes such as extraction, dispersion, purification, and chemical reactions.
- 5).eliminates costly mechanical and chemical cleaning of heat exchangers

How long will the order take to make?

Under regular production capacity, it takes 25 days after your confirmation of details.
