Transducer box size can be made based on customer tank size.

#### Immersible ultrasonic transducer units can be installed in the tank by three ways:

1. side mounted
2. bottom mounted
3. top mounted

Skymen will design proper mounted way for you according to your requirements and existing tank specifications.

#### Introduction of Skymen ultrasonic generator & transducer box

1. Skymen immersible ultrasonic transducer box-embedded in your existing tank.
2. Good quality-custom made size-chemicals resistance-moveable-convenient install.
3. JTM series immersible ultrasonic transducer system includes transducer box and generator. It can be used when the standard model ultrasonic cleaner is inapplicable in the specific working conditions, besides may have the special specification made to order.
4. The transducer box and generator are separate but work together to operate ultrasonic cleaning process with transducer box immersible mounted in fluid tank. The transducer box is moveable in the tank for more convenience.
5. The number and placement of transducers is selected to give maximum results in any parts cleaning tank with any cleaning load.
