

Stainless Steel Automatic Ultrasonic Cleaner Machine for Aircraft Parts

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: SkyMen
- Certification: CE
- Model Number: JTM-2036
- Minimum Order Quantity: 1sets
- Price: Negotiation
- Packaging Details: 1set/ wooden case
- Delivery Time: In Stock
- Payment Terms: Paypal / T/T / western Union
- Supply Ability: 600pcs per month

Product Specification

- Product Name: Ultrasonic Cleaner
- Capacity: 125liter
- Ultrasonic Power: 1800W
- Ultrasonic Frequency: 28 / 40KHz
- Timer: 0-99min
- Feature: SUS304 / 316L Material
- Highlight: **dual frequency ultrasonic cleaner, ultrasonic washing machine**

Product Description

Automatic Industrial Ultrasonic Cleaner Machine for Aircraft Parts Clean

Skymen double tank ultrasonic cleaner JTM-2036 is the customized ultrasonic cleaner, we could design and make the machine according to customers' demand.

Usually, one tank for cleaning, and another for rinsing. Ideal to clean rust, carbon, paint, heavy oil, fruit agricultural chemicals and other things hard to clean, without damage to parts inside tank.

Specifications:

Ultrasonic Tank's working dimension (mm)	500*500*500(L*W*H)
Ultrasonic power	1800W
Tank's total capacity	125L/tank
Tank's material	SUS304 / SUS316
In-tank surface finishing	Hard-Cr Plating Treatment (20+ microns)
Housing's material	Stainless steel
Ultrasonic frequency	28kHz / 40kHz
Ultrasonic transducer	36pcs
Electronic generator	JM-1800
Heater's (hot plate) power	4.5KW
Others	With rinsing tank

Description:

Adjustable ultrasonic power
Original BLT type transducer
SUS 316L stainless steel tank
Adaptable for continuous operation

Adjustable thermo controller
Adjustable ultrasonic power
With separate control ultrasonic electronic generator
Sweep mode control available
Digital timer & heating control
Boost mode& oil skimmer upon client's requirement
Pressure pump and filter system are available

Functions:

JTS series single tank ultrasonic cleaner equipment system includes replaceable transducer box and generator. The transducer box and generator can be both build-in or separate but work together to operate ultrasonic cleaning process with transducer box immersible mounted in fluid tank, one side or both side or bottom mounted inside the tank. The number and placement of transducers is selected to give maximum results in any parts cleaning tank with any cleaning load. Specification of tank dimension and transducer boxes is custom made available. Either for mould or parts cleaning can receive perfect cleaning efficiency. Stainless steel basket is optional.

Skymen is a Chinese ultrasonic cleaning company, the largest ultrasonic cleaner manufacturer in the world.

Industrial Ultrasonic Cleaners can Solve your Cleaning Challenges.

Ultrasonic technology is changing today's parts cleaning industry by making precision cleaning safer, faster, less expensive and more effective. Ultrasonic cleaners offer results far beyond traditional cleaning methods, for everything from carburetors to medical instruments. Non-toxic ultrasonic cleaning bubbles eradicate even microscopic grime in the tiniest crevices. This technology eliminates the need for harsh chemicals and hand cleaning.

Get precisely what you need.

Our industrial parts cleaning tanks vary in size and power to match your specific cleaning challenges – from large stainless steel tanks to small table top washers. They can be customized for unusually shaped parts, but chances are we have a unit that will do the job

We want you to see results.

Using Skymen ultrasonic systems, you'll improve the quality of your products, increase production and efficiency, and decrease your impact on the environment. By using our affordable water-based soaps and enzyme solutions instead of expensive chemicals and disposal, you'll save 70% or more in cleaning materials costs.
