

## 360L Capacity Ultrasonic Cleaning Equipment 3600W Power With 1-99 Hours Timer

Our Product Introduction

for more products please visit us on [skymenultrasonic.com](http://skymenultrasonic.com)

### Basic Information

### Product Specification

- Capacity: 360L
- Tank Size: 1000\*600\*600mm
- Model: JP-720G
- Heating Power: 9000W
- Timer: 1-99hours
- Ultrasonic Power: 3600W
- Frequency: 28/40KHz
- Material: SUS304
- Highlight: **360L Ultrasonic Cleaning Equipment,  
Ultrasonic Cleaning Equipment With Timer,  
SUS304 Ultrasonic Cleaning Machine**

## Product Description

### Product Description:

Automotive Ultrasonic Cleaner: Industrial Grade 3600W 360L Ultrasonic Cleaning Machine

This industrial grade ultrasonic cleaning machine is designed to meet the highest standards of both strength and performance. With a powerful 3600W ultrasonic power, it is capable of taking on large scale cleaning projects with a 360L capacity. The timer is adjustable from 1-99 hours and the frequency can be adjusted to 28/40KHz for a superior cleaning experience. The SUS304 material ensures it is highly resistant to corrosion and wear, making it ideal for industrial use.

Whether you need an automotive ultrasonic cleaner or any other type of industrial cleaning machine, this ultrasonic cleaning machine is a great choice. Its superior cleaning performance is backed by a powerful motor and a corrosion resistant SUS304 material construction, making it a highly reliable choice for any industrial application. Get your projects done faster and easier with this ultrasonic cleaning machine.

### Features:

Product Name: **Ultrasonic Cleaning Machine**

Capacity: **360L**

Ultrasonic Power: **3600W**

Heating Power: **9000W**

Material: **SUS304**

Model: **JP-720G**

**Ultrasonic Cleaner** for Automotive and Auto Parts

### Technical Parameters:

Parameter	Value
Model	JP-720G
Timer	1-99hours
Tank Size	1000*600*600mm
Heating Power	9000W
Ultrasonic Power	3600W
Frequency	28/40KHz
Material	SUS304
Capacity	360L

### Applications:

The **Automotive Ultrasonic Cleaner JP-720G** is a powerful industrial-grade cleaning machine, equipped with a timer that can be set from 1-99 hours and a capacity of 360L. It is made of high quality SUS304 material, with a tank size of 1000\*600\*600mm. This powerful industrial ultrasonic cleaning machine is ideal for a wide range of industrial applications, such as automotive parts, medical components, mechanical parts, electronic components, industrial molds, and more. It can be used to clean even the most difficult-to-reach components, while preserving the integrity of the material, and achieving optimal cleaning results. With its advanced cleaning technology, the JP-720G is designed to provide efficient, thorough, and gentle cleaning in even the toughest industrial settings.

### Packing and Shipping:

## Ultrasonic Cleaning Machine Packaging and Shipping

#### Packaging:

The Ultrasonic Cleaning Machine is packaged using a standard cardboard box. The box is designed to protect the machine from any shock or damage during shipping. It also includes inner packaging material to ensure the safety of the components.

#### Shipping:

The Ultrasonic Cleaning Machine is shipped via a reliable and insured shipping carrier. The carrier is responsible for ensuring the safe arrival of the product at its destination.

#### FAQ:

**Q:** What is the Ultrasonic Cleaning Machine used for?

**A:** The Ultrasonic Cleaning Machine is used for cleaning delicate objects or surfaces with high precision where traditional methods of cleaning are not suitable.

**Q:** How does the Ultrasonic Cleaning Machine work?

**A:** The Ultrasonic Cleaning Machine works by generating sound waves in a cleaning liquid that create microscopic bubbles which implode and provide a scrubbing action to remove dirt and contaminants from the object being cleaned.

**Q:** What is the size of the Ultrasonic Cleaning Machine?

**A:** The Ultrasonic Cleaning Machine is designed to fit into any space, as the size can be tailored to the customer's requirements.

**Q:** What materials can the Ultrasonic Cleaning Machine clean?

**A:** The Ultrasonic Cleaning Machine can be used to clean any material, including metals, plastics, glass, and ceramics.

**Q:** Does the Ultrasonic Cleaning Machine require any special maintenance?

**A:** The Ultrasonic Cleaning Machine requires regular maintenance to ensure it is in peak performance. This includes cleaning the unit, replacing the cleaning liquid, and checking for any damage.
