## Product Description

### Product Description:

Anilox Roller Cleaning Equipment is designed to efficiently and effectively clean anilox rolls for optimal printing. It is suitable for a variety of anilox rollers, including ceramic, chrome, and steel anilox rolls. With a cleaning time of 5 to 15 minutes, an operating temperature of 5 to 50°C, a weight of 130kg, and power of 220V/380v, 3 Phase, this equipment is an ideal choice for anilox washing and anilox ultrasonic cleaning. It is designed to reduce downtime and provide reliable results with minimal effort. The equipment is also designed to be easy to use and operate with minimal training. This anilox roller cleaning equipment is a must-have for any print shop or manufacturing environment.

### Features:

Product Name: Anilox Roller Cleaning Equipment

Tank Size: 900\*600\*250mm

Power: 220V/380v, 3 Phase

Warranty: 1 Year

Cleaning Method: Ultrasonic

Features:

Specialized for roller cleaning, especially printing anilox cleaning.

Professional anilox roller cleaning.

### Technical Parameters:

Product Name	Technical Parameter
Anilox Roller Cleaning Equipment	Material: SUS304; Cleaning Time: 5-15min; Tank Size: 900*600*250mm; Operating Temperature: 5-50°C; Cleaning Method: Ultrasonic; Weight: 130kg; Warranty: 1 Year; Power: 220V/380v, 3 Phase; Tank Capacity: 135L

### Applications:

Skymer's customized anilox roller cleaning machine, model JTS-1048W, is designed to effectively clean anilox rollers with its advanced ultrasonic cleaning technology. It is made with SUS304 material and is manufactured in China. This anilox ultrasonic cleaning machine is capable of operating within a temperature range of 5-50°C, and comes with a 1 year warranty. It also has a lightweight of 130kg for easy transportation.

This anilox roller cleaning machine is suitable for any machine that requires anilox roller cleaning, such as printing and coating machines. It can quickly and effectively clean the anilox rolls, removing the ink, paint, and other contaminants that are stuck on the surface of the roller. The ultrasonic cleaning process is gentle, and will not cause any damage to the anilox rollers.

The Skymer anilox roller cleaning machine offers a fast and reliable solution to cleaning anilox rollers. It is user-friendly and can be used in any industrial setting. It is ideal for keeping the anilox surfaces clean and clear, ensuring that the prints are of the highest quality.

### Customization:

Skymer's Anilox Roller Cleaning Equipment is a customized anilox roller cleaning machine with tank capacity of 135L, made of SUS304 material. This anilox ultrasonic cleaning machine operates at the temperature of 5-50°C and with a weight of 130kg. It is model JTS-1048W, and with the cleaning time of 5-15min, it provides a fast and efficient cleaning solution for anilox rollers.

### Support and Services:

#### Anilox Roller Cleaning Equipment Technical Support and Service

We're here to help you get the most out of your Anilox Roller Cleaning Equipment. Our Technical Support and Service team is dedicated to providing you with the highest quality service, and we're committed to helping you maximize the return on your investment.

Our team is experienced in all aspects of Anilox Roller Cleaning Equipment, from installation and operation, to maintenance and repair. We offer a full range of services, including:

Installation and setup assistance

Troubleshooting and repair

On-site training and support

Remote monitoring and diagnostics

Software and hardware updates

Technical assistance and advice

We understand the importance of keeping your Anilox Roller Cleaning Equipment running at its best. Our technicians are available to answer your questions and provide you with the support and service you need.

### **Packing and Shipping:**

#### **Packaging and Shipping for Anilox Roller Cleaning Equipment:**

The product is carefully packaged in a box with a foam insert to protect from shock and vibration during shipping. The box is then placed in a suitable shipping container, such as a wooden crate or cardboard box. The package is then labeled with the appropriate shipping information and securely sealed. The package is then sent through a reliable courier service to ensure it safely reaches its destination.

### **FAQ:**

Q: What is Anilox Roller Cleaning Equipment?

A: Anilox Roller Cleaning Equipment is a type of cleaning equipment designed to clean anilox rollers used in flexographic printing.

Q: What is the brand of Anilox Roller Cleaning Equipment?

A: The brand of Anilox Roller Cleaning Equipment is Skymen.

Q: What is the model number of Anilox Roller Cleaning Equipment?

A: The model number of Anilox Roller Cleaning Equipment is JTS-1048W.

Q: Where is Anilox Roller Cleaning Equipment made?

A: Anilox Roller Cleaning Equipment is made in China.

Q: What are the benefits of using Anilox Roller Cleaning Equipment?

A: Anilox Roller Cleaning Equipment can help to improve the quality of print jobs by removing ink build-up from the anilox rollers and preventing clogging of the roller.
