Product Description

Product Description:

Kitchen Soak Tank

The Kitchen Soak Tank is a highly efficient and reliable solution for cleaning heavily soiled kitchen equipment. Designed specifically for commercial kitchen use, this soak tank is equipped with advanced technology to remove tough grease, grime, and carbon buildup from cookware and utensils.

Tank Capacity: 250L

The Kitchen Soak Tank has a large capacity of 250L, making it suitable for cleaning multiple items at once. This reduces the time and effort required for cleaning and improves overall efficiency in the kitchen.

Gross Weight: 98KG

With a gross weight of 98KG, the Kitchen Soak Tank is heavy-duty and sturdy, ensuring durability and stability during use. Its robust construction can withstand high-temperature cleaning and heavy loads without any damage.

Internal Tank Size: 850*480*620MM

The internal tank size of 850*480*620MM allows for easy fitting of various sizes and types of cookware and utensils. This makes it a versatile cleaning solution for a wide range of commercial kitchen equipment.

Inner Tank Material: Stainless Steel 304

The inner tank of the Kitchen Soak Tank is made of high-quality Stainless Steel 304, ensuring durability and resistance to corrosion and rust. This makes it a long-lasting investment for any commercial kitchen.

Power Supply: 110V / 220V, Single Phase

The Kitchen Soak Tank is designed to be convenient and easy to use with a power supply of 110V or 220V, single phase. This makes it compatible with most standard electrical outlets, eliminating the need for any additional installations or modifications.

Filter Cleaning Soak Tank

The Kitchen Soak Tank is not just a regular soak tank, but also a filter cleaning soak tank. Its advanced filtration system ensures that the water used for cleaning is constantly filtered, removing any debris and contaminants. This maintains the cleanliness of the water and prolongs its use, reducing water wastage and operating costs.

Cookware Soak Tub

With the Kitchen Soak Tank, there is no need for scrubbing and harsh chemicals to clean heavily soiled cookware. Simply soak them in the tub and let the advanced cleaning technology do the work. This saves time, effort, and money while still ensuring a thorough and efficient cleaning process.

Cooking Utensils Soak Container

The Kitchen Soak Tank is also an ideal solution for cleaning cooking utensils such as spatulas, tongs, and ladles. Simply place them in the soak container and let the tank do the rest. This reduces the risk of cross-contamination and ensures that all utensils are thoroughly cleaned and sanitized before their next use.

Commercial Kitchen Equipment

The Kitchen Soak Tank is suitable for use in various commercial kitchen settings, including restaurants, hotels, and catering businesses. Its versatility and efficiency make it an essential piece of equipment for maintaining a clean and hygienic kitchen environment.

Customer Satisfaction

Our top priority is customer satisfaction. We strive to provide the best possible support and services to ensure that our customers are completely satisfied with their Kitchen Soak Tank. If you have any feedback or suggestions on how we can improve our product or services, please do not hesitate to contact us.

Thank you for choosing our Kitchen Soak Tank. We look forward to providing you with top-notch technical support and services.

Packing and Shipping:

Kitchen Soak Tank - Packaging and Shipping

Thank you for purchasing our Kitchen Soak Tank! Our team has carefully packaged your product to ensure its safe arrival. Here's what you can expect:

The Kitchen Soak Tank will be securely wrapped in bubble wrap to prevent any damage during transport.

It will then be placed in a sturdy cardboard box with additional padding to provide extra protection.

The box will be sealed with packing tape to keep the product secure.

A shipping label with your address and tracking number will be attached to the box for easy identification and tracking of your package.

We strive to be environmentally responsible, which is why our packaging is made from recyclable materials.

Once your order is placed, please allow 1-2 business days for processing. You will receive a confirmation email with your tracking number once your package has been shipped.

If you have any questions or concerns about your order, please don't hesitate to contact us. We want to make sure you are completely satisfied with your purchase.

Thank you for choosing Kitchen Soak Tank. Happy cleaning!
