

## 9000W Heating Industrial Ultrasonic Cleaner Water Detergent Cleaning Mode

### Our Product Introduction

for more products please visit us on [skymenultrasonic.com](http://skymenultrasonic.com)

#### Basic Information

- Place of Origin: China
- Brand Name: Skymen
- Certification: CE FC PSE ROHS ISO
- Model Number: JP-720G
- Minimum Order Quantity: 1
- Price: \$5900
- Packaging Details: WOODEN BOX
- Delivery Time: 10-25 days
- Payment Terms: EXW
- Supply Ability: 5000pcs/month

#### Product Specification

- Frequency: 28/40KHZ Optional
- Cleaning Basket: SUS 304
- Tank Size: 1000\*600\*600mm
- Drainage: Yes
- Timer: 1-99 Hours
- External Generator: 2 Units
- Ultrasonic Power: 3600W
- Highlight: **9000W Heating Industrial Ultrasonic Cleaner, Water Detergent Industrial Ultrasonic Cleaner, Industrial Ultrasonic Cleaning machine with Drainage**

## Product Description

### Product Description:

Industrial Ultrasonic Cleaner - Your Ultimate Cleaning Solution

The Industrial Ultrasonic Cleaner is an advanced and efficient cleaning device designed for industrial use. It utilizes ultrasonic technology to provide thorough and effective cleaning for a wide range of industrial parts and components.

Product Overview

The Industrial Ultrasonic Cleaner is a state-of-the-art cleaning system that is designed to meet the high demands of industrial cleaning. It is equipped with advanced features and functions that make it the perfect choice for industries such as automotive, manufacturing, and electronics.

Key Features

**Drainage:** The Industrial Ultrasonic Cleaner comes with a built-in drainage system, making it easy to drain out the used cleaning solution and refill it with a fresh one.

**Cleaning Basket:** The cleaning basket is made of SUS 304 stainless steel, ensuring durability and corrosion resistance.

**Temperature:** The cleaner has a temperature range of 1-90 degrees, allowing for customized cleaning depending on the type of parts being cleaned.

**Frequency:** The frequency of the ultrasonic waves can be adjusted to either 28 or 40KHZ, depending on the cleaning requirement.

**Cleaning Mode:** The Industrial Ultrasonic Cleaner offers two cleaning modes - water and detergent. This allows for versatile cleaning options to suit different types of industrial parts and components.

Industrial Sonic Cleaning Device

The Industrial Ultrasonic Cleaner is more than just a regular cleaning machine. It is a powerful sonic cleaning device that utilizes high-frequency sound waves to create tiny bubbles in the cleaning solution. These bubbles penetrate deep into the surface of the parts being cleaned, effectively removing dirt, oil, grease, and other contaminants.

Industrial Cleaning Ultrasonic System

The Industrial Ultrasonic Cleaner is a complete ultrasonic cleaning system that includes all the necessary components for efficient and effective cleaning. This includes the cleaning tank, transducers, heating element, drainage system, and control panel.

Ultrasonic Parts Cleaning Machine

The Industrial Ultrasonic Cleaner is specifically designed for cleaning various industrial parts and components. With its powerful ultrasonic technology, it can effectively remove contaminants from metal, plastic, glass, and other types of materials. It is ideal for cleaning engine parts, gears, valves, electronic components, and much more.

In conclusion, the Industrial Ultrasonic Cleaner is a must-have for any industrial setting that requires thorough and efficient cleaning of parts and components. Its advanced features, durable construction, and customizable cleaning options make it the ultimate cleaning solution for all your industrial needs.

### Features:

Product Name: Industrial Ultrasonic Cleaner

Timer: 1-99 Hours

Drainage: Yes

Cleaning Mode: Water & Detergent

Capacity: JP-720G

Heating power: 9000W

Ultrasonic Cleaning Equipment

Heavy Duty Ultrasonic Cleaner

### Technical Parameters:

Product Name	Industrial Ultrasonic Cleaner
Product Type	Heavy Duty Ultrasonic Cleaner
Model No.	JP-720G
Timer	1-99 Hours
Heating	Yes
Frequency	28/40KHZ Optional
Drainage	Yes
Cleaning Basket	SUS 304
Heating Power	9000W
Capacity	JP-720G
Tank Material	SUS 304/316
Ultrasonic Power	3600W

Tank Size	1000*600*600mm

## Applications:

Industrial Ultrasonic Cleaner - Skymen JP-720G

Skymen JP-720G is a large scale ultrasonic cleaner designed for industrial use. With its powerful cleaning capabilities, it is suitable for a variety of industries and can handle heavy duty cleaning tasks with ease. This ultrasonic cleaning equipment is a game changer in the cleaning industry, providing efficient and effective cleaning solutions for businesses.

Brand Name: Skymen

Skymen is a well-known brand in the ultrasonic cleaning equipment market. With years of experience and expertise in the industry, Skymen has become a trusted name for high quality and reliable cleaning equipment. The Skymen JP-720G is just one of the many products that have made Skymen a leading brand in the market.

Model Number: JP-720G

The model number JP-720G refers to the specific model of the industrial ultrasonic cleaner. It is a unique identifier for this particular product, making it easy for customers to find and purchase the exact model they need.

Place of Origin: China

The Skymen JP-720G is proudly made in China. This country is known for its manufacturing capabilities and the Skymen JP-720G is a testament to that. Made with high quality materials and advanced technology, this product is reliable and durable.

Certification: CE FC PSE ROHS ISO

The Skymen JP-720G is certified by various international organizations, including CE, FC, PSE, ROHS, and ISO. These certifications ensure that the product meets all safety and quality standards and is suitable for use in various industries.

Minimum Order Quantity: 1

Customers can purchase the Skymen JP-720G with a minimum order quantity of just one unit. This makes it accessible for businesses of all sizes, from small startups to large corporations.

Price: \$5900

The Skymen JP-720G is priced at \$5900, making it an affordable option for businesses looking for a high power ultrasonic cleaner. This price is competitive in the market, especially considering the features and capabilities of this product.

Packaging Details: WOODEN BOX

The Skymen JP-720G is packaged in a sturdy wooden box to ensure safe transportation and delivery. This packaging is designed to protect the product from any damage during shipping.

Delivery Time: 10-25 days

Skymen values customer satisfaction and strives to deliver the product within a reasonable time frame. The delivery time for the Skymen JP-720G is 10-25 days, depending on the customer's location.

Payment Terms: EXW

The payment terms for the Skymen JP-720G is EXW (Ex Works). This means the buyer is responsible for all costs and risks associated with the transportation of the product from the seller's premises.

Supply Ability: 5000pcs/month

With a supply ability of 5000pcs/month, Skymen can meet the demands of various industries and provide efficient solutions for their cleaning needs. This also ensures a steady supply of the product for customers.

Ultrasonic Power: 3600W

The Skymen JP-720G has a powerful ultrasonic power of 3600W, making it suitable for heavy duty cleaning tasks. This power ensures deep and thorough cleaning of industrial equipment and parts.

Drainage: Yes

The Skymen JP-720G has a drainage system, making it easy to remove and dispose of the cleaning solution and debris after use. This saves time and effort for the user and allows for a more efficient cleaning process.

Frequency: 28/40KHZ Optional

The Skymen JP-720G has a frequency of 28/40KHZ, which can be adjusted according to the user's needs. This flexibility allows for a wider range of cleaning applications.

Timer: 1-99 Hours

The Skymen JP-720G has a timer that can be set for 1-99 hours, providing a customizable cleaning process. This allows the user to set the appropriate cleaning time for different items and achieve the best results.

Applications and Scenes

The Skymen JP-720G is designed for industrial cleaning and is suitable for a variety of applications and scenes. Some of the common uses of this product include:

Manufacturing plants - for cleaning equipment and machinery used in production

Automotive industry - for cleaning engine parts, gears, and other components

Medical industry - for cleaning surgical instruments and medical equipment

Food and beverage industry - for cleaning production equipment and containers

Metalworking industry - for cleaning metal parts and tools

Electronics industry - for cleaning circuit boards and other electronic components

Aerospace industry - for cleaning aircraft parts and components

The Skymen JP-720G can also be used in various scenes, such as factories, workshops, laboratories, and more. Its large scale and high power capabilities make it suitable for heavy duty cleaning tasks in these environments.

Conclusion

The Skymen JP-720G is a top-of-the-line industrial ultrasonic cleaner that offers efficient and effective cleaning solutions for businesses. With its large scale and high power capabilities, it is suitable for a variety of industries and can handle heavy duty cleaning tasks with ease. Made with high quality materials and advanced technology, this product is reliable, durable, and certified by various international organizations. With a competitive price, flexible payment terms, and a steady supply ability, Skymen JP-720G is the ideal choice for businesses looking for an industrial cleaning ultrasonic system.

## Customization:

Customized Service for Industrial Ultrasonic Cleaner - Skymen JP-720G

**Brand Name:** Skymen  
**Model Number:** JP-720G  
**Place of Origin:** China  
**Certification:** CE, FC, PSE, ROHS, ISO  
**Minimum Order Quantity:** 1  
**Price:** \$5900  
**Packaging Details:** Wooden Box  
**Delivery Time:** 10-25 days  
**Payment Terms:** EXW  
**Supply Ability:** 5000pcs/month  
**Heating Power:** 9000W  
**Frequency:** 28/40KHZ Optional  
**Timer:** 1-99 Hours  
**Temperature:** 1-90 Degree

This customized service is specifically designed for the Industrial Ultrasonic Cleaner from Skymen, model number JP-720G. Our ultrasonic cleaning equipment is known for its high power and efficiency, making it the perfect choice for industrial use. With our customized service, you can tailor the cleaner to fit your specific needs and requirements.

Our industrial ultrasonic cleaner is perfect for cleaning various parts and components, making it a valuable addition to any industrial setting. With our customized service, you can choose the frequency (28/40KHZ) that best suits your cleaning needs. The timer can be set anywhere from 1 to 99 hours, and the temperature can be adjusted from 1 to 90 degrees, ensuring thorough and precise cleaning.

At Skymen, we understand the importance of quality and efficiency in industrial cleaning. That's why our ultrasonic parts cleaning machine is certified with CE, FC, PSE, ROHS, and ISO, guaranteeing its safety and reliability. Our customized service also allows you to choose the packaging (wooden box) and delivery time (10-25 days) that works best for you.

With a minimum order quantity of just 1 unit and a price of \$5900, our industrial ultrasonic cleaning system is a cost-effective solution for your cleaning needs. And with a heating power of 9000W, you can be sure that your parts will be thoroughly cleaned and ready for use in no time.

Choose Skymen for your industrial ultrasonic cleaning needs and experience the benefits of our customized service. Contact us today to learn more and place your order!

## Packing and Shipping:

Industrial Ultrasonic Cleaner

Packaging and Shipping

The Industrial Ultrasonic Cleaner is carefully packaged to ensure safe delivery to our customers. Each unit is packed in a sturdy, custom-made carton box with foam padding to protect against any potential damage during transit.

Our standard packaging includes:

Industrial Ultrasonic Cleaner unit

Power cord

Instruction manual

Warranty information

We take great care in preparing your order for shipping. Our packaging team performs a thorough inspection of each unit before it is sealed and shipped out. We also use high-quality packaging materials to provide additional protection during transportation.

We offer various shipping options to meet our customers' needs. These include standard ground shipping, express shipping, and international shipping. Our shipping rates are competitive and calculated based on the weight and destination of the package.

For international orders, we take extra precautions to ensure that all necessary customs forms and documentation are included with the shipment. We also work closely with our trusted shipping partners to ensure that your order arrives at its destination safely and on time.

At Industrial Ultrasonic Cleaner, we are committed to providing our customers with high-quality products and excellent service. We strive to make the packaging and shipping process as efficient and worry-free as possible.
