Product Description

Product Description:

Industrial Ultrasonic Cleaner

The Industrial Ultrasonic Cleaner is a powerful and efficient cleaning system designed for industrial use. This high power ultrasonic cleaner is perfect for removing stubborn dirt, grease, and contaminants from various surfaces and objects. With its advanced technology and versatile features, it is an essential tool for maintaining a clean and hygienic workspace.

Product Overview

The Industrial Ultrasonic Cleaner is an industrial cleaning ultrasonic system that utilizes ultrasonic waves to create powerful cleaning action. It is designed to save time and labor while providing effective cleaning results. With its water and detergent cleaning mode, it can easily remove tough stains and dirt from a variety of surfaces, including metal, plastic, glass, and more.

Key Features

Water & Detergent Cleaning Mode: The Industrial Ultrasonic Cleaner offers a dual cleaning mode, allowing you to choose between using water or detergent for a more effective and thorough cleaning process.

1-99 Hours Timer: This ultrasonic cleaner comes with a timer function that can be set anywhere between 1 to 99 hours, providing you with the flexibility to adjust the cleaning time according to your needs.

28/40KHZ Frequency: The Industrial Ultrasonic Cleaner offers a frequency option of 28/40KHZ, making it suitable for different types of cleaning tasks and materials.

SUS 304/316 Tank Material: The tank of this ultrasonic cleaner is made of high-quality SUS 304/316 stainless steel, ensuring durability, corrosion resistance, and easy maintenance.

Drainage Function: This ultrasonic cleaner is equipped with a drainage valve, allowing for easy disposal of waste and dirty water.

Benefits

The Industrial Ultrasonic Cleaner offers numerous benefits that make it an essential tool for industrial cleaning:

Efficient and Effective Cleaning: The ultrasonic waves create a powerful cleaning action that can easily remove tough dirt and stains from various surfaces.

Saves Time and Labor: With its advanced technology and features, this ultrasonic cleaner can significantly reduce cleaning time and labor costs.

Versatile Usage: It can be used to clean a wide range of objects and surfaces, making it suitable for various industries such as automotive, manufacturing, and more.

Durable and Easy to Maintain: The SUS 304/316 tank material ensures durability and easy maintenance, making it a cost-effective solution for industrial cleaning needs.

Conclusion

The Industrial Ultrasonic Cleaner is a reliable and efficient tool for industrial cleaning. With its water and detergent cleaning mode, 1-99 hours timer, 28/40KHZ frequency, SUS 304/316 tank material, and drainage function, it offers a comprehensive cleaning solution for various industries. Invest in the Industrial Ultrasonic Cleaner to ensure a clean and hygienic work environment.

High Power Ultrasonic Cleaner

Technical Parameters:

Product Name	Industrial Ultrasonic Cleaner
Product Type	Ultrasonic Cleaning Equipment
Model Number	JP-720G
Drainage	Yes
Heating	Yes
Capacity	720 Liters
External Generator	2 Units

Heating Power	9000W
Ultrasonic Power	3600W
Cleaning Basket	SUS 304
Tank Material	SUS 304/316
Frequency	28/40KHZ Optional
Timer	1-99 Hours
Product Name	Industrial Grade Ultrasonic Cleaner
Product Type	Advanced Ultrasonic Cleaning System
Model Number	JP-720G
Drainage	Yes
Heating	Yes
Capacity	720 Liters
External Generator	2 Units
Heating Power	9000W
Ultrasonic Power	3600W
Cleaning Basket	SUS 304
Tank Material	SUS 304/316
Frequency	28/40KHZ Optional
Timer	1-99 Hours

Applications:

Industrial Ultrasonic Cleaner - Skymen JP-720G

This industrial ultrasonic cleaner is a powerful and efficient cleaning system designed for heavy duty use. It is manufactured by Skymen, a trusted brand known for its high-quality products.

The model number for this cleaner is JP-720G and it is made in China. It has been certified by CE, FC, PSE, ROHS, and ISO, ensuring its safety and quality standards. The minimum order quantity for this product is 1 and it is priced at \$5900. It is packaged in a wooden box and has a delivery time of 10-25 days.

The Skymen JP-720G ultrasonic cleaner is an advanced cleaning system that uses high power ultrasonic technology to provide efficient and thorough cleaning. With a heating power of 9000W and ultrasonic power of 3600W, it is capable of tackling tough cleaning tasks with ease.

One of the key features of this cleaner is its large capacity, making it suitable for industrial use. The JP-720G has a cleaning basket made of SUS 304, which is durable and can withstand heavy loads. This makes it a perfect choice for cleaning large and heavy items.

The operation of this cleaner is easy and user-friendly, making it suitable for all types of industries. It is designed to be safe and reliable, ensuring that your cleaning process is smooth and hassle-free.

The Skymen JP-720G is an industrial grade ultrasonic cleaner that is built to last. Its durable construction and efficient cleaning make it a top choice for various industries such as automotive, pharmaceutical, electronics, and more.

Moreover, the JP-720G is a customizable product, allowing you to tailor its features and specifications according to your specific needs and requirements. This makes it a versatile and multipurpose cleaning solution for a wide range of applications.

In conclusion, the Skymen JP-720G industrial ultrasonic cleaner is a high-quality and reliable product that offers fast, efficient, and thorough cleaning. Its advanced technology, durability, and customizable features make it a top choice for various industries. With a supply ability of 5000pcs per month, this cleaner is readily available to meet your industrial cleaning needs.

Customization:

Industrial Ultrasonic Cleaner - Customized Service

Brand Name: Skymen

Model Number: JP-720G

Place of Origin: China

Our Industrial Ultrasonic Cleaner, model JP-720G, is designed and manufactured by Skymen in China. It is a high-quality, industrial grade ultrasonic cleaning equipment that is suitable for various applications.

Certification:

Our Industrial Ultrasonic Cleaner is certified by CE, FC, PSE, ISO, REACH, ROHS, and PAHS, ensuring its safety and quality standards. Minimum Order Quantity: 1

We offer a flexible minimum order quantity of 1 unit for our Industrial Ultrasonic Cleaner, allowing customers to customize their orders according to their specific needs.

Price: \$5900

Our Industrial Ultrasonic Cleaner is priced at \$5900, making it a cost-effective and affordable solution for industrial cleaning needs.

Packaging Details: Wooden Box

To ensure the safe delivery of our Industrial Ultrasonic Cleaner, we package it in a sturdy wooden box to protect it from any damages during transportation.

Delivery Time: 10-25 days

We understand the importance of timely delivery, which is why we offer a delivery time of 10-25 days for our Industrial Ultrasonic Cleaner.
Payment Terms: EXW

Our payment terms for the Industrial Ultrasonic Cleaner is EXW, providing our customers with more flexibility and control over their orders.

Supply Ability: 5000pcs/month

With a monthly supply ability of 5000 units, we are able to meet the demands of our customers and ensure a steady and consistent supply of our Industrial Ultrasonic Cleaner.

Cleaning Mode: Water & Detergent

Our Industrial Ultrasonic Cleaner offers two cleaning modes - water and detergent - allowing customers to choose the best option for their specific cleaning needs.

External Generator: 2 Units

To enhance the cleaning efficiency of our Industrial Ultrasonic Cleaner, we provide 2 units of external generators, ensuring a thorough and effective cleaning process.

Temperature: 1-90 Degree

The temperature range of our Industrial Ultrasonic Cleaner is 1-90 degrees, providing customers with the flexibility to adjust the temperature according to their cleaning requirements.

Cleaning Basket: SUS 304

Our Industrial Ultrasonic Cleaner comes with a cleaning basket made of SUS 304 stainless steel, ensuring durability and resistance to corrosion.

Heating Power: 9000W

With a heating power of 9000W, our Industrial Ultrasonic Cleaner is able to heat up quickly and maintain a consistent temperature throughout the cleaning process.

Packing and Shipping:

Packaging and Shipping for Industrial Ultrasonic Cleaner

The Industrial Ultrasonic Cleaner is carefully packaged and shipped to ensure its safe arrival at your doorstep. Here's a breakdown of our packaging and shipping process:

1. Packaging:

Each unit is individually wrapped in a layer of protective film to prevent any scratches or damage during transit. It is then placed in a sturdy cardboard box with ample padding to provide extra protection against bumps and drops. The box is sealed securely to prevent any moisture or dirt from entering.

2. Shipping:

We offer worldwide shipping for our Industrial Ultrasonic Cleaner. We partner with reliable and trusted courier services to ensure timely delivery. Depending on your location, we offer a variety of shipping options to choose from. You can track your package in real-time and will be provided with a tracking number once your order is shipped.

For international orders, please note that there may be additional customs and duty charges applied by your country's authorities. These charges are the responsibility of the buyer and are not included in the product price or shipping cost.

Once your order is received, we will process it within 1-2 business days and provide you with an estimated delivery date based on your chosen shipping method and location.

Rest assured, we take great care in packaging and shipping our products to ensure they arrive in perfect condition. In the unlikely event that your Industrial Ultrasonic Cleaner arrives damaged, please contact us immediately and we will arrange for a replacement to be sent to you.

Thank you for choosing our Industrial Ultrasonic Cleaner. We hope it exceeds your expectations and provides you with the best cleaning experience.
