

1000*600*600mm Tank Industrial Ultrasonic Cleaner With High Frequency And 2 Generators

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Skymen
- Certification: CE FC PSE ISO REACH ROHS PAHS
- Model Number: JP-720G
- Minimum Order Quantity: 1
- Price: \$5900
- Packaging Details: WOODEN BOX
- Delivery Time: 10-25 days
- Payment Terms: EXW
- Supply Ability: 5000pcs/month

Product Specification

- Tank Material: SUS 304/316
- Capacity: JP-720G
- Heating: Yes
- Temperature: 1-90 Degree
- Heating Power: 9000W
- Ultrasonic Power: 3600W
- Tank Size: 1000*600*600mm
- Cleaning Mode: Water & Detergent
- Highlight: **2 Generators Industrial Ultrasonic Cleaner,
High Frequency Industrial Ultrasonic Cleaner,
High Frequency Skymen Ultrasonic Cleaner**

Product Description

Product Description:

Industrial Ultrasonic Cleaner

The Industrial Ultrasonic Cleaner is a heavy duty ultrasonic cleaning device designed for industrial use. It is the perfect solution for cleaning large and heavy parts efficiently and effectively. With its high power and large capacity, it is the ideal choice for industries such as automotive, aerospace, manufacturing, and more.

Product Overview

The Industrial Ultrasonic Cleaner is a powerful and efficient cleaning system that uses ultrasonic technology to remove dirt, grease, and other contaminants from various parts and components. It is designed to provide a thorough and consistent cleaning, saving time and manpower for industrial companies.

Key Features

Drainage: This ultrasonic cleaner is equipped with a drainage system, making it easy to drain and replace the cleaning solution.

Certification: Our Industrial Ultrasonic Cleaner is certified by CE, FC, PSE, ROHS, and ISO, ensuring its quality and safety.

Heating: This cleaner has a heating function, allowing you to adjust the temperature for a more effective cleaning process.

Heating Power: With a heating power of 9000W, this ultrasonic cleaner can heat up the cleaning solution quickly and maintain a constant temperature.

Ultrasonic Power: With a powerful ultrasonic power of 3600W, this cleaner can generate high-frequency sound waves to clean even the toughest dirt and grime.

Product Specifications

Model: Industrial Ultrasonic Cleaner

Capacity: Large

Power: High

Ultrasonic Frequency: 40kHz

Tank Material: Stainless Steel

Timer: 0-99 minutes

Temperature Range: 20-80°C

Drainage: Yes

Certification: CE, FC, PSE, ROHS, ISO

Heating: Yes

Heating Power: 9000W

Ultrasonic Power: 3600W

Application

The Industrial Ultrasonic Cleaner is suitable for various industries and applications, including:

Automotive parts cleaning

Aerospace parts cleaning

Manufacturing equipment cleaning

Heavy machinery parts cleaning

Metal parts cleaning

Electronic components cleaning

Why Choose Our Industrial Ultrasonic Cleaner?

Our Industrial Ultrasonic Cleaner stands out from other ultrasonic cleaning systems in the market because of its advanced features and superior performance. Here are some reasons why you should choose our cleaner:

Heavy Duty Ultrasonic Cleaner: It is designed to handle heavy-duty cleaning tasks, making it suitable for industrial use.

Industrial Sonic Cleaning Device: With its ultrasonic technology, this cleaner can reach deep into the crevices of parts and components, providing a thorough and efficient cleaning.

Ultrasonic Parts Cleaning Machine: It is specifically designed for cleaning various parts and components, making it a versatile and essential tool for any industrial company.

Large Capacity Ultrasonic Cleaner: With its large capacity, this cleaner can accommodate bigger and heavier parts, saving time and effort in the cleaning process.

High Power Ultrasonic Cleaning System: With a high ultrasonic power, this cleaner can remove tough dirt and grime, resulting in a more thorough and effective cleaning.

Conclusion

The Industrial Ultrasonic Cleaner is a must-have for any industrial company that values efficiency, effectiveness, and quality. With its advanced features, high power, and large capacity, it is the perfect solution for all your industrial cleaning needs. Invest in our Industrial Ultrasonic Cleaner today and see the difference it can make in your cleaning process.

Features:

Product Name: Industrial Ultrasonic Cleaner

Heating power: 9000W

Tank Size: 1000*600*600mm

Certification: CE, FC, PSE, ROHS, ISO

Drainage: Yes

Capacity: JP-720G

Industrial Grade Ultrasonic Cleaner
Ultrasonic Cleaning Equipment
Large Scale Ultrasonic Cleaner

Technical Parameters:

Product Name	Industrial Ultrasonic Cleaner
Product Type	Large Scale Ultrasonic Cleaner
Application	Ultrasonic Parts Cleaning Machine
External Generator	2 Units
Frequency	28/40KHZ Optional
Heating Power	9000W
Tank Size	1000*600*600mm
Drainage	Yes
Timer	1-99 Hours
Cleaning Mode	Water & Detergent
Ultrasonic Power	3600W
Cleaning Basket	SUS 304
Tank Material	SUS 304/316
Additional Features	High Power Ultrasonic Cleaner

Applications:

Industrial Ultrasonic Cleaner - Skymen JP-720G

Brand Name: Skymen
Model Number: JP-720G
Place of Origin: China
Certification: CE FC PSE ROHS ISO
Minimum Order Quantity: 1
Price: \$5900
Packaging Details: WOODEN BOX
Delivery Time: 10-25 days
Payment Terms: EXW
Supply Ability: 5000pcs/month

Product Description

The Skymen JP-720G Industrial Ultrasonic Cleaner is a high-quality, industrial grade ultrasonic cleaner designed for heavy duty cleaning tasks. It is perfect for use in large scale industrial cleaning applications where efficiency and effectiveness are of utmost importance.

Application Scene

The Skymen JP-720G Industrial Ultrasonic Cleaner is ideal for use in a variety of industries, including automotive, aerospace, electronics, medical, and more. Its powerful ultrasonic cleaning technology makes it suitable for cleaning a wide range of items such as metal parts, PCBs, surgical instruments, and much more.

Features and Benefits

Large Capacity: The JP-720G has a capacity of 720 liters, making it a perfect choice for industrial cleaning tasks that require a high volume of items to be cleaned at once.

Water & Detergent Cleaning: This industrial cleaning ultrasonic system is capable of both water and detergent cleaning, providing you with the flexibility to choose the most suitable cleaning method for your specific needs.

External Generator: The JP-720G comes with 2 units of external generator, allowing for a more powerful and efficient cleaning process.

High Ultrasonic Power: With an ultrasonic power of 3600W, this heavy duty ultrasonic cleaner is capable of removing even the toughest dirt, grime, and contaminants from your items.

Usage Tips

To achieve the best results and prolong the lifespan of your Skymen JP-720G Industrial Ultrasonic Cleaner, follow these tips:

Use the recommended cleaning solution for your specific cleaning task.

Follow the recommended temperature and time settings for your cleaning task.

Do not overload the cleaner. Make sure there is enough space for the items to move freely during the cleaning process.

After use, drain and clean the tank thoroughly, and store the cleaner in a dry and clean place.

Invest in the Skymen JP-720G Industrial Ultrasonic Cleaner today and experience efficient and effective cleaning like never before!

Customization:

Customized Services for Skymen Industrial Ultrasonic Cleaner JP-720G

Brand Name: Skymen
Model Number: JP-720G
Place of Origin: China

Certification: CE FC PSE ISO REACH ROHS PAHS
Minimum Order Quantity: 1
Price: \$5900
Packaging Details: WOODEN BOX
Delivery Time: 10-25 days
Payment Terms: EXW
Supply Ability: 5000pcs/month
Tank Size: 1000*600*600mm
Heating: Yes
Heating power: 9000W
External generator: 2 Units
Cleaning Mode: Water & Detergent

Introducing the Skymen JP-720G, a heavy duty industrial ultrasonic cleaner designed to provide efficient and thorough cleaning for all your industrial needs. With our customized services, we guarantee the best results for your specific cleaning requirements.

Our industrial sonic cleaning device is equipped with high power ultrasonic technology, ensuring deep and effective cleaning for even the toughest dirt and grime. The tank size of 1000*600*600mm allows for large and bulky items to be cleaned with ease.

In addition, we offer the option of heating for an even more powerful cleaning process. With a heating power of 9000W, our ultrasonic cleaner can handle even the most stubborn stains and contaminants.

For your convenience, our JP-720G comes with 2 external generators, providing extra power and versatility for your cleaning needs. Our cleaning mode includes the use of water and detergent, ensuring a thorough and hygienic cleaning process.

With our commitment to quality, the Skymen JP-720G is certified with CE, FC, PSE, ISO, REACH, ROHS, and PAHS. We guarantee a minimum order quantity of 1, and offer competitive pricing at \$5900. Our packaging includes a wooden box for secure transportation, and we have a supply ability of 5000pcs per month.

Trust Skymen for all your industrial ultrasonic cleaning needs. Contact us today for more information and to customize your JP-720G according to your specific requirements.

Packing and Shipping:

Packaging and Shipping of Industrial Ultrasonic Cleaner

The Industrial Ultrasonic Cleaner is carefully packaged to ensure safe delivery to our customers. Each unit is wrapped in protective material and placed in a sturdy cardboard box with additional padding to prevent any damage during transit.

We offer various shipping options for our customers to choose from, including standard ground shipping and expedited shipping for urgent orders. All orders are processed and shipped within 2 business days.

For international orders, we use secure packaging and work with trusted shipping carriers to ensure timely delivery and safe arrival of the product.

Our packaging is designed to be eco-friendly and we use recycled materials whenever possible to reduce our environmental impact.

Upon delivery, please carefully inspect the packaging and product for any signs of damage. If you notice any issues, please contact us immediately so we can resolve the issue.
