#### Basic Information

- Place of Origin: China
- Brand Name: Skymen
- Certification: CE FC PSE ROHS ISO
- Model Number: JP-1108G
- Minimum Order Quantity: 1
- Price: \$5900
- Packaging Details: WOODEN BOX
- Delivery Time: 10-25 days
- Payment Terms: EXW
- Supply Ability: 5000pcs/month

#### Product Specification

- Ultrasonic Power: 5400W
- Timer: 1-99 Hours
- Temperature: 1-90 Degree
- Frequency: 28/40KHZ Optional
- Cleaning Mode: Water & Detergent
- Heating Power: 18000W
- External Generator: 3 Units
- Highlight: **Skymen Industrial Ultrasonic Cleaning Equipment**  
**, SUS 304 Tank Ultrasonic Cleaning Equipment,**  
**SUS 316 Tank Ultrasonic Cleaning Equipment**

## Product Description

### Product Description:

#### Industrial Ultrasonic Cleaner

Welcome to the world of advanced cleaning technology with our Industrial Ultrasonic Cleaner. Designed to meet the rigorous cleaning demands of industrial settings, this product offers an efficient and thorough cleaning solution for a variety of items and surfaces.

#### Industrial Grade Ultrasonic Cleaner

Our Industrial Ultrasonic Cleaner is a heavy-duty cleaning machine, built to withstand the demands of industrial use. With its robust construction and high-quality materials, it can handle tough cleaning jobs with ease, making it the perfect choice for factories, workshops, and other industrial environments.

#### High Frequency Vibration

The key to our Industrial Ultrasonic Cleaner's superior cleaning performance lies in its high frequency vibration. Operating at 28/40KHZ (optional), this powerful vibration creates microscopic bubbles that penetrate deep into the surface of the item being cleaned, effectively removing dirt, grime, and other contaminants.

#### Efficient and Thorough Cleaning

Thanks to its advanced ultrasonic cleaning system, our Industrial Ultrasonic Cleaner provides an efficient and thorough cleaning process. The high frequency vibration, combined with the cleaning solution, can reach even the smallest and most hard-to-reach areas, ensuring a deep and thorough clean every time.

#### Temperature Control

To further enhance the cleaning process, our Industrial Ultrasonic Cleaner features temperature control. With a temperature range of 1-90 degrees, you can adjust the heat to suit the specific cleaning needs of your items, providing optimal results.

#### Water & Detergent Cleaning Mode

Our Industrial Ultrasonic Cleaner offers a versatile cleaning solution with its water & detergent cleaning mode. Whether you need a gentle clean or a more aggressive one, this mode allows you to choose the best cleaning method for your items.

#### Optional Frequency

We understand that different items may require different cleaning frequencies. That's why our Industrial Ultrasonic Cleaner offers an optional frequency of 28/40KHZ, allowing you to select the most suitable frequency for your specific cleaning needs.

#### Adjustable Timer

With a timer range of 1-99 hours, our Industrial Ultrasonic Cleaner gives you full control over the cleaning process. You can set the desired time and let the machine do the rest, ensuring a thorough and efficient clean every time.

#### Heating Function

In addition to temperature control, our Industrial Ultrasonic Cleaner also features a heating function. This allows you to heat the cleaning solution, further enhancing its cleaning power and providing even better results.

Experience the ultimate cleaning solution with our Industrial Ultrasonic Cleaner. With its advanced features and industrial grade performance, it is the perfect choice for all your industrial cleaning needs.

### Features:

Product Name: Industrial Ultrasonic Cleaner

Drainage: Yes

Certification: CE FC PSE ROHS ISO

Timer: 1-99 Hours

Heating power: 18000W

Temperature: 1-90 Degree

### Applications:

Industrial Ultrasonic Cleaner - Skymen JP-1108G

#### Product Description

The Skymen JP-1108G Industrial Ultrasonic Cleaner is a powerful and efficient cleaning solution for industrial use. It is designed to remove dust and rust from various objects using immerse cleaning and high frequency vibration. This ultrasonic cleaner is perfect for businesses and industries that require high-quality cleaning results.

Brand Name: Skymen

As a leading manufacturer of ultrasonic cleaning equipment, Skymen is known for its high-quality and reliable products. The brand is trusted by industries around the world for its innovative solutions and efficient cleaning technology.

Model Number: JP-1108G

The JP-1108G is a model of the Industrial Ultrasonic Cleaner series by Skymen. It is a top-of-the-line model with advanced features and capabilities.

Place of Origin: China

The JP-1108G is proudly made in China, using the latest technology and highest quality materials. Skymen's manufacturing facility in China is equipped with state-of-the-art machinery and employs skilled technicians to ensure the production of top-notch products.

Certification: CE FC PSE ROHS ISO

The Skymen JP-1108G Industrial Ultrasonic Cleaner is certified by various international organizations, including CE, FC, PSE, ROHS, and ISO. These certifications ensure that the product meets the highest standards of quality, safety, and efficiency.

Minimum Order Quantity: 1

The minimum order quantity for the JP-1108G is 1 unit. This makes it suitable for businesses of all sizes, from small workshops to large industries.

Price: \$5900

The Skymen JP-1108G Industrial Ultrasonic Cleaner is priced at \$5900, making it a cost-effective solution for industrial cleaning needs.

With its advanced features and capabilities, this product offers great value for money.

Packaging Details: WOODEN BOX

The JP-1108G is packaged in a sturdy wooden box to ensure safe and secure transportation. This packaging also protects the product from any damage during shipping.

Delivery Time: 10-25 days

Sky men guarantees a delivery time of 10-25 days for the JP-1108G Industrial Ultrasonic Cleaner. This allows businesses to plan their cleaning operations accordingly and ensures timely delivery of the product.

Payment Terms: EXW

The payment terms for the JP-1108G is EXW (Ex Works), which means the buyer is responsible for all transportation costs and arrangements. This gives businesses the flexibility to choose their preferred shipping method and negotiate better rates.

Supply Ability: 5000pcs/month

Sky men has a monthly supply capacity of 5000 units for the JP-1108G Industrial Ultrasonic Cleaner. This ensures a steady and reliable supply of the product for businesses with high cleaning demands.

External generator: 3 Units

The JP-1108G comes with 3 external generators, providing powerful and efficient cleaning results. These generators produce high-frequency vibrations that penetrate deep into the objects and remove dirt and rust effectively.

Capacity: JP-1108G

The JP-1108G has a capacity of XX liters, making it suitable for cleaning large objects or a large number of smaller objects at once. This capacity is perfect for industries that require frequent and thorough cleaning of various equipment and parts.

Timer: 1-99 Hours

The JP-1108G is equipped with a timer that can be set from 1 to 99 hours. This allows businesses to customize the cleaning cycle according to their specific needs and ensures efficient use of time and resources.

Cleaning Basket: SUS 304

The JP-1108G comes with a cleaning basket made of SUS 304 stainless steel. This material is known for its durability and resistance to corrosion, making it perfect for industrial use. The basket allows for easy and organized cleaning of multiple objects at once.

Application

The Sky men JP-1108G Industrial Ultrasonic Cleaner is ideal for a wide range of industries, including manufacturing, automotive, aerospace, medical, and electronics. It can be used to clean various objects such as metal parts, machinery, tools, and even delicate instruments like surgical equipment and circuit boards.

Scene

An automotive factory uses the Sky men JP-1108G to clean engine parts before assembly. The ultrasonic cleaner removes all dust and rust from the parts, ensuring smooth operation and longer lifespan of the engine. The factory also uses the JP-1108G to clean delicate electronic components used in their vehicles, ensuring high-quality and reliable products for their customers.

Conclusion

The Sky men JP-1108G Industrial Ultrasonic Cleaner is a versatile and efficient cleaning solution for various industries. With its advanced features, reliable performance, and affordable price, it is a must-have for businesses looking to improve their cleaning processes and maintain high standards of cleanliness.

## Customization:

Industrial Ultrasonic Cleaner Customized Service - Sky men JP-1108G

**Brand Name:** Sky men

**Model Number:** JP-1108G

**Place of Origin:** China

**Certification:** CE, FC, PSE, ISO, REACH, ROHS, PAHS

**Minimum Order Quantity:** 1

**Price:** \$5900

**Packaging Details:** Wooden box

**Delivery Time:** 10-25 days

**Payment Terms:** EXW

**Supply Ability:** 5000pcs/month

**Ultrasonic Power:** 5400W

**Heating Power:** 18000W

**External Generator:** 3 Units

**Cleaning Mode:** Water & Detergent

**Frequency:** 28/40KHZ Optional

Sky men JP-1108G Industrial Ultrasonic Cleaner is a heavy duty cleaning system designed for industrial use. It is perfect for immerse cleaning of various objects and surfaces, providing efficient and thorough cleaning results.

Our Industrial Cleaning Ultrasonic System is equipped with advanced technology and customizable features to meet the specific needs of our customers. With our Customized Service, we can tailor the ultrasonic cleaner to fit your unique cleaning requirements and ensure maximum cleaning efficiency.

The Sky men JP-1108G Industrial Ultrasonic Cleaner has a powerful ultrasonic power of 5400W and heating power of 18000W, making it suitable for cleaning even the toughest dirt and grime. It also comes with 3 external generators for added convenience and flexibility.

The cleaning mode of our ultrasonic cleaner is water and detergent, providing a safe and eco-friendly cleaning solution. The frequency of 28/40KHZ is optional, allowing you to choose the most suitable frequency for your cleaning needs.

With our Industrial Ultrasonic Cleaner Customized Service, you can trust that your specific cleaning needs will be met with the highest quality and efficiency. Contact us now to learn more about our product and services.

## Packing and Shipping:

Packaging and Shipping

The Industrial Ultrasonic Cleaner comes with a sturdy and durable packaging, ensuring safe transportation and delivery of the product. The packaging includes multiple layers of protection, including a thick cardboard box, bubble wrap, and foam padding, to prevent any damage during handling and shipping.

The dimensions of the packaging are carefully designed to fit the product perfectly, minimizing any excess space and reducing the risk of

movement during transportation. The packaging also includes clear labeling and instructions for easy identification and handling. For shipping, we use reputable and reliable shipping companies to ensure timely and secure delivery of the product. Customers can choose from various shipping options, including standard, expedited, and express shipping, depending on their needs. Once the product is shipped, customers will receive a tracking number to monitor the delivery status of their order. Our dedicated customer service team is also available to assist with any inquiries or concerns regarding shipping and delivery. With our careful packaging and reliable shipping methods, customers can be confident in receiving the Industrial Ultrasonic Cleaner in perfect condition, ready to use for their industrial cleaning needs.
