

Skymen Large Scale Ultrasonic Cleaner With Adjustable Temperature / 40KHZ Optional

Our Product Introduction

for more products please visit us on skymenultrasonic.com

Basic Information

- Place of Origin: China
- Brand Name: Skymen
- Certification: CE FC PSE ISO REACH ROHS PAHS
- Model Number: JP-1108G
- Minimum Order Quantity: 1
- Price: \$5900
- Packaging Details: WOODEN BOX
- Delivery Time: 10-25 days
- Payment Terms: EXW
- Supply Ability: 5000pcs/month

Product Specification

- Cleaning Mode: Water & Detergent
- Heating Power: 18000W
- Temperature: 1-90 Degree
- Ultrasonic Power: 5400W
- Frequency: 28/40KHZ Optional
- Tank Material: SUS 304/316
- Drainage: Yes
- Tank Size: 1000*900*600mm
- Highlight: **Skymen Large Scale Ultrasonic Cleaner, 40KHZ Skymen Ultrasonic Cleaner, Adjustable Temperature Skymen Ultrasonic Cleaner**

Product Description

Product Description:

Industrial Ultrasonic Cleaner

Industrial Ultrasonic Cleaner

Efficient Cleaning for Industrial Use

The Industrial Ultrasonic Cleaner is a high power, heavy-duty cleaning machine designed for industrial use. It is equipped with advanced ultrasonic technology to provide efficient and versatile cleaning for a wide range of industrial applications. With its multi-functional design and user-friendly operation, this cleaner is the perfect solution for all your heavy-duty cleaning needs.

Key Features:

Dust and rust removing: The powerful ultrasonic waves can penetrate deep into the surface of objects, effectively removing dust and rust particles.

High Power Ultrasonic Cleaner: With an ultrasonic power of 5400W, this cleaner can easily remove tough stains and dirt from various materials.

Industrial Grade Ultrasonic Cleaner: Made with durable materials and advanced technology, this cleaner is built to withstand the demands of industrial use.

Efficient Cleaning: The ultrasonic waves create tiny bubbles that quickly and thoroughly clean every nook and cranny of the object being cleaned.

Versatile Cleaning: The cleaner can be used with both water and detergent, making it suitable for various cleaning applications.

Multi-functional Design: The cleaner comes with a timer that can be set from 1 to 99 hours, allowing for customized cleaning according to different needs.

Heavy-duty Cleaning: With a heating power of 18000W, this cleaner can handle even the toughest cleaning tasks with ease.

Durable Construction: The cleaner is made with high-quality stainless steel, ensuring long-lasting performance and resistance to corrosion.

User-friendly Operation: The cleaner is easy to operate, with simple controls and clear instructions, making it accessible to all users.

Specifications:

Cleaning Mode: Water & Detergent

Timer: 1-99 Hours

Heating power: 18000W

Capacity: JP-1108G

Ultrasonic Power: 5400W

Invest in the Industrial Ultrasonic Cleaner for efficient and versatile cleaning solutions for your industrial needs. Its high power, durable construction, and user-friendly operation make it the perfect choice for heavy-duty cleaning tasks. Order yours today and experience the power of ultrasonic cleaning technology.

Features:

Product Name: Industrial Ultrasonic Cleaner

Drainage: Yes

Tank Size: 1000*900*600mm

Frequency: 28/40KHZ Optional

External generator: 3 Units

Tank Material: SUS 304/316

Car Engine Parts Cleaning Machine

Industrial Grade Ultrasonic Cleaner

Industrial Ultrasonic Washer

Technical Parameters:

Item	Technical Parameters
External generator	3 Units
Certification	CE, FC, PSE, ROHS, ISO
Tank Size	1000*900*600mm
Cleaning Mode	Water & Detergent
Ultrasonic Power	5400W
Frequency	28/40KHZ Optional
Tank Material	SUS 304/316
Timer	1-99 Hours

Drainage	Yes
Cleaning Basket	SUS 304

Industrial Ultrasonic Cleaner is a large scale, industrial grade cleaner that provides efficient and effective cleaning for a variety of applications. Its technical parameters are as follows:

Product Name	Industrial Ultrasonic Cleaner
External generator	3 Units
Certification	CE, FC, PSE, ROHS, ISO
Tank Size	1000*900*600mm
Cleaning Mode	Water & Detergent
Ultrasonic Power	5400W
Frequency	28/40KHZ Optional
Tank Material	SUS 304/316
Timer	1-99 Hours
Drainage	Yes
Cleaning Basket	SUS 304

This industrial ultrasonic cleaner is specifically designed for immerse cleaning with its large tank size and powerful ultrasonic power. It is also certified by CE, FC, PSE, ROHS, and ISO, ensuring its safety and quality. With a cleaning mode that uses both water and detergent, it can effectively remove dirt and grime from various surfaces. The ultrasonic power of 5400W and optional frequency of 28/40KHZ make it suitable for a wide range of cleaning tasks. The tank material is made of durable SUS 304 or 316, ensuring its longevity and resistance to corrosion. It also comes with a timer that can be set for 1-99 hours and a drainage system for easy cleaning. A cleaning basket made of SUS 304 is also included to hold small items during the cleaning process. With its industrial grade design and advanced features, this industrial ultrasonic cleaner is the perfect solution for all your cleaning needs.

Applications:

Product Overview

The Skymen JP-1108G is an industrial grade ultrasonic cleaner designed for heavy duty cleaning tasks. It utilizes high frequency sound waves to create a powerful cavitation effect, which can remove tough stains, dust, and rust from various objects with ease. This thorough cleaning process is perfect for industries that require precise cleanliness, such as manufacturing, automotive, medical, and jewelry industries.

Key Features

Brand Name: Skymen
Model Number: JP-1108G
Place of Origin: China
Certification: CE FC PSE ROHS ISO
Minimum Order Quantity: 1
Price: \$5900
Packaging Details: Wooden box
Delivery Time: 10-25 days
Payment Terms: EXW
Supply Ability: 5000pcs/month

Applications

The JP-1108G ultrasonic cleaner is suitable for a wide range of industries and objects, including:

Heavy machinery: The powerful cleaning ability of the JP-1108G makes it ideal for removing dirt and grime from large and heavy machinery parts.

Automotive parts: From engine parts to car accessories, the ultrasonic cleaner can effectively remove grease, oil, and other contaminants from automotive parts.

Precision instruments: The gentle yet thorough cleaning process of the JP-1108G is perfect for delicate precision instruments, ensuring they are free from any dirt or debris.

Medical equipment: The ultrasonic cleaner is commonly used in medical facilities to clean and disinfect medical equipment, such as surgical tools and instruments.

Laboratory equipment: With its precise cleaning ability, the JP-1108G is also suitable for cleaning laboratory equipment, including glassware, beakers, and test tubes.

Jewelry, eyeglasses, watches, and coins: These small and delicate objects can be easily cleaned and restored to their original shine with the JP-1108G.

Hardware and industrial tools: The ultrasonic cleaner is also perfect for removing dirt, grease, and rust from hardware and industrial tools, extending their lifespan and maintaining their efficiency.

Cleaning Process

The JP-1108G ultrasonic cleaner uses a combination of high frequency sound waves and a cleaning solution to achieve a thorough cleaning process. The object to be cleaned is immersed in the tank filled with the cleaning solution, and the ultrasonic waves create millions of tiny bubbles that collapse and create a powerful cleaning force known as cavitation. This process effectively removes any dirt, dust, or rust from the object, leaving it clean and shiny. The cleaner also has a drainage system for easy disposal of the used cleaning solution.

Cleaning Solution

The JP-1108G can be used with various types of cleaning solutions, such as detergent or degreaser, depending on the type of objects

being cleaned. These solutions are environmentally friendly and do not contain harsh chemicals, making them safe for both the user and the environment.

Temperature and Capacity

The JP-1108G has a temperature range of 1-90 degrees, allowing for adjustments to suit different cleaning needs. It also has a large tank size of 1000*900*600mm, providing ample space to clean multiple objects at once, increasing efficiency and saving time.

Conclusion

The Skymen JP-1108G Industrial Ultrasonic Cleaner is a reliable and efficient cleaning solution for a variety of industries and objects. With its powerful cleaning ability, environmentally friendly cleaning solutions, and large capacity, it is a must-have for any business that values cleanliness and efficiency.

Customization:

Industrial Ultrasonic Cleaner - Customized Service

Brand Name: Skymen

Model Number: JP-1108G

Place of Origin: China

Certification: CE FC PSE ROHS ISO

Minimum Order Quantity: 1

Price: \$5900

Packaging Details: WOODEN BOX

Delivery Time: 10-25 days

Payment Terms: EXW

Supply Ability: 5000pcs/month

Timer: 1-99 Hours

Drainage: Yes

Packing and Shipping:

Packaging and Shipping

Our Industrial Ultrasonic Cleaner comes in a sturdy and secure packaging to ensure safe delivery to our customers. The product is carefully wrapped in protective materials to prevent any damage during transportation.

We offer standard and customized packaging options according to the specific needs of our customers. Our standard packaging includes a durable cardboard box with foam inserts, while our customized packaging can include branding and product information.

We ship our Industrial Ultrasonic Cleaner worldwide using reliable and efficient delivery services. Our team takes great care in packaging and labeling the product to avoid any mishaps during transit.

For international deliveries, we provide necessary documentation and comply with all customs requirements to ensure a smooth and hassle-free delivery process for our customers.

Our goal is to provide our customers with a seamless experience from purchase to delivery, and we strive to achieve this through our careful packaging and efficient shipping methods.
