Basic Information

- Place of Origin: China
- Brand Name: Sky men
- Certification: CE FC PSE ROHS ISO
- Model Number: JP-2072GH
- Minimum Order Quantity: 1
- Price: \$4000
- Packaging Details: WOODEN BOX
- Delivery Time: 10-25 days
- Payment Terms: EXW
- Supply Ability: 5000pcs/month

Product Specification

- Manufacturing Time: About 25 Days
- Cleaning Mode: Water & Detergent
- Heating Power: 4500*2
- Heating: Yes
- Tank Size: 600*500*450mm
- Weight: 300KG
- Frequency: 28/40KHZ Optional
- Highlight: **ISO Heavy Duty Ultrasonic Cleaner,
90 Degree Heavy Duty Ultrasonic Cleaner,
Water Detergent Cleaning Ultrasonic Cleaner**

Product Description

Product Description:

Industrial Ultrasonic Cleaner - JP-2072GH

The Industrial Ultrasonic Cleaner JP-2072GH is a heavy duty ultrasonic cleaner designed for industrial use. With its advanced technology and powerful cleaning capabilities, it is the perfect solution for removing tough stains and dirt from various objects.

Timer

The timer on the JP-2072GH can be set anywhere from 1 to 99 hours, providing flexibility and convenience for the user. This allows for efficient and customized cleaning of different types of objects.

Heating

The Industrial Ultrasonic Cleaner JP-2072GH comes equipped with a heating feature, making it suitable for cleaning objects that require heat for effective cleaning. This feature helps to loosen and remove stubborn dirt, grease and oil from objects, resulting in a thorough and efficient cleaning process.

Cleaning Basket

The product comes with a SUS 304 cleaning basket, which is made of high quality stainless steel. This makes it durable and resistant to corrosion, ensuring a longer lifespan for the cleaner.

Weight

The Industrial Ultrasonic Cleaner JP-2072GH has a weight of 300KG, making it a heavy duty and sturdy machine. This weight provides stability and ensures that the cleaner can withstand heavy usage in industrial settings.

Capacity

The JP-2072GH has a large capacity, making it suitable for cleaning a wide range of objects. Its capacity is perfect for cleaning larger items or multiple smaller items at once, making it a time-efficient and cost-effective solution for industrial cleaning needs.

Automatic Frequency Chasing Ultrasound Cleaning

The JP-2072GH is equipped with advanced technology that allows for automatic frequency chasing ultrasound cleaning. This means that the cleaner can adjust its frequency according to the type of object being cleaned, resulting in a more effective and efficient cleaning process. This feature also ensures that delicate objects are not damaged during the cleaning process.

Oil Pollution Removing

The Industrial Ultrasonic Cleaner JP-2072GH is specially designed to remove oil pollution from objects. The powerful ultrasonic waves and heating feature work together to break down and remove oil and grease from objects, leaving them clean and spotless.

In conclusion, the Industrial Ultrasonic Cleaner JP-2072GH is a powerful and versatile machine that is perfect for heavy duty industrial cleaning. Its advanced features, such as the timer, heating, and automatic frequency chasing ultrasound cleaning, make it a highly efficient and effective solution for removing tough stains and dirt. With its durable design and large capacity, it is a reliable and cost-effective choice for any industrial setting.

Features:

Product Name: Industrial Ultrasonic Cleaner

Capacity: JP-2072GH

Tank Size: 600*500*450mm

Function: Ultrasonic Cleaning + Rinsing

Ultrasonic Power: 3600W

Timer: 1-99 Hours

Key Features:

Industrial Ultrasonic Washer

Immerse cleaning

Industrial Cleaning Ultrasonic System

Technical Parameters:

Product Name	Industrial Ultrasonic Cleaner
Capacity	JP-2072GH
Certification	CE, FC, PSE, ROHS, ISO
Timer	1-99 Hours
Drainage	Yes
Overall Dimension	1200*1100*1000mm
Cleaning Mode	Water & Detergent
Temperature	1-90 Degree
Manufacturing Time	About 25 Days
Heating	Yes
Ultrasonic Power	3600W

Key Features	Large Scale Ultrasonic Cleaner, Oil Pollution Removing, Ultrasonic Parts Cleaning Machine
--------------	---

Applications:

Industrial Ultrasonic Cleaner - Skymen JP-2072GH

Brand Name: Skymen
Model Number: JP-2072GH
Place of Origin: China
Certification: CE FC PSE ISO REACH ROHS PAHS
Minimum Order Quantity: 1
Price: \$4000
Packaging Details: WOODEN BOX
Delivery Time: 10-25 days
Payment Terms: EXW
Supply Ability: 5000pcs/month
Temperature: 1-90 Degree
Timer: 1-99 Hours
Capacity: JP-2072GH
Frequency: 28/40KHZ Optional
Drainage: Yes

The Skymen JP-2072GH Industrial Ultrasonic Cleaner is a high-quality, efficient and versatile cleaning equipment designed for industrial use. With its advanced technology and durable construction, it is suitable for a wide range of industrial cleaning applications.

Application

The Industrial Ultrasonic Cleaner is perfect for cleaning a variety of industrial parts and components such as metal, plastic, glass, and ceramic materials. It is widely used in industries such as manufacturing, automotive, aerospace, medical, and electronics.

Scene

Imagine a busy manufacturing plant where hundreds of small parts need to be cleaned every day. The workers used to spend hours manually cleaning these parts, but with the Skymen JP-2072GH Industrial Ultrasonic Cleaner, the process has become much more efficient and time-saving. The workers simply place the parts in the large capacity tank filled with water and a suitable cleaning solution. The ultrasonic waves produced by the cleaner create millions of tiny bubbles that penetrate every nook and cranny of the parts, effectively removing any dirt, grease, or contaminants. After a set period of time, the cleaning process is complete. The workers can then remove the parts, rinse them off, and dry them. The result is perfectly clean parts ready for the next stage of production.

Key Features

Industrial Grade Ultrasonic Cleaner - designed for heavy-duty use in industrial environments.
Immerse cleaning - the parts are fully submerged in the cleaning solution for thorough cleaning.
Large capacity - the JP-2072GH model has a capacity of XX liters, suitable for cleaning multiple parts at once.
High cleaning efficiency - the ultrasonic waves can reach even the smallest crevices, ensuring a thorough cleaning.
Energy-saving - the cleaner uses less energy compared to traditional cleaning methods, making it more environmentally friendly.
Time-saving - the cleaning process is much faster compared to manual cleaning, saving valuable time and increasing productivity.
Multi-function - the cleaner can be used for a variety of materials and parts, making it a versatile cleaning equipment.
Durable - made with high-quality materials, the cleaner is built to last and can withstand continuous use in industrial settings.
Easy operation - the cleaner has a user-friendly interface and simple controls, making it easy for workers to operate.
Advanced technology - the ultrasonic technology used in the cleaner ensures efficient and effective cleaning results.
With its numerous advantages and features, the Skymen JP-2072GH Industrial Ultrasonic Cleaner is a must-have for any industrial setting. It not only ensures a clean and hygienic working environment but also improves productivity and saves time and energy. Get yours today and experience the difference it can make in your industrial cleaning processes.

Customization:

Industrial Ultrasonic Cleaner Customization Service

Brand Name: Skymen
Model Number: JP-2072GH
Place of Origin: China
Certification: CE FC PSE ISO REACH ROHS PAHS
Minimum Order Quantity: 1
Price: \$4000
Packaging Details: WOODEN BOX
Delivery Time: 10-25 days
Payment Terms: EXW
Supply Ability: 5000pcs/month
Weight: 300KG
Timer: 1-99 Hours
Ultrasonic Power: 3600W
Heating power: 4500*2
Heating: Yes
Key Features:

Dust and Rust Removing
High-Powered Ultrasonic Cleaning Equipment
Immersive Cleaning Tank

Packing and Shipping:

Industrial Ultrasonic Cleaner

Packaging and Shipping

Our Industrial Ultrasonic Cleaner is carefully packaged to ensure safe delivery to our customers. Each unit is placed in a sturdy cardboard box and wrapped with protective materials to prevent damage during transportation. The box is then sealed and labeled with the contents and shipping information.

For international shipping, the product is packed in compliance with all necessary regulations and requirements. This includes proper labeling and documentation for customs clearance.

We offer various shipping options to meet our customers' needs. Our standard shipping method is through reputable carriers such as UPS, FedEx, or DHL. For bulk orders, we also offer sea freight options for more cost-effective shipping.

Our team takes great care in ensuring that all orders are shipped promptly and arrive on time. However, in the rare event of any shipping delays or issues, we have a dedicated customer service team ready to assist and provide updates.

We take pride in our high-quality packaging and shipping standards to ensure our customers receive their Industrial Ultrasonic Cleaner in perfect condition.
