Skymen Technology Corporation Limited skymenultrasonic.com

300KG High Power Ultrasonic Cleaner 1-90 Degree With External Generator 2 **Units**

Basic Information

• Place of Origin: China • Brand Name: Skymen

 Certification: CE FC PSE ISO REACH ROHS PAHS

• Model Number: JP-2072GH

• Minimum Order Quantity:

\$4000 • Price:

· Packaging Details: **WOODEN BOX**

• Delivery Time: 10-25 days

• Payment Terms: EXW

· Supply Ability: 5000pcs/month

Product Specification

• External Generator: 2 Units · Heating Power: 4500*2

• Temperature: 1-90 Degree • Weight: 300KG

• Overall Dimension: 1200*1100*1000mm

· Manufacturing Time: About 25 Days

• Drainage: Yes • Heating: Yes

• Highlight: 90 Degree High Power Ultrasonic Cleaner,

External Generator High Power Ultrasonic

, Deep Cleaning heated ultrasonic parts cleaner

Product Description:

Industrial Ultrasonic Cleaner: A Powerful Solution for Deep Cleaning

The Industrial Ultrasonic Cleaner is a highly effective and versatile cleaning tool, designed for use in a wide range of industrial and commercial applications. This powerful cleaner utilizes ultrasonic technology to provide a thorough and efficient cleaning process, making it an essential addition to any industrial environment.

Key Features

The Industrial Ultrasonic Cleaner is equipped with a range of features that make it the ideal choice for large scale cleaning tasks. These features include:

Cleaning Basket: Made of high-quality SUS 304 stainless steel, the cleaning basket provides a sturdy and durable base for holding items during the cleaning process. This ensures that the items are effectively exposed to the ultrasonic waves for maximum cleaning efficiency. Timer: With a timer range of 1-99 hours, this ultrasonic cleaner allows for precise control over the cleaning process. Users can easily set the desired cleaning time, ensuring that items are cleaned thoroughly without the risk of overexposure to the ultrasonic waves.

Heating: The Industrial Ultrasonic Cleaner features a heating function, which allows for the use of hot water during the cleaning process. This helps to enhance the cleaning power of the ultrasonic waves, making it easier to remove tough dirt and grime from items.

Certification: This ultrasonic cleaner is certified by CE, FC, PSE, ROHS, and ISO, ensuring that it meets the highest standards of quality and safety. This makes it a reliable and trustworthy choice for industrial cleaning applications.

Function: The Industrial Ultrasonic Cleaner is designed to perform both ultrasonic cleaning and rinsing, providing a comprehensive cleaning solution for a wide range of items. This dual function makes it a versatile and efficient tool for any industrial cleaning task. DPF Ultrasonic Cleaning

One of the key applications of the Industrial Ultrasonic Cleaner is DPF cleaning. DPF (Diesel Particulate Filter) is a critical component of diesel engines, responsible for trapping harmful particles and reducing emissions. Over time, DPFs can become clogged with soot and other contaminants, leading to reduced engine performance and increased emissions. The Industrial Ultrasonic Cleaner offers a highly effective solution for cleaning and restoring DPFs to their optimal condition.

The Industrial Ultrasonic Cleaner is also commonly used as an industrial ultrasonic washer. Its large size and powerful ultrasonic waves make it suitable for cleaning a wide range of industrial items, including machinery parts, tools, and equipment. The ultrasonic cleaning process is gentle yet thorough, ensuring that items are cleaned without any damage or corrosion.

Large Scale Ultrasonic Cleaner

With its large capacity and powerful cleaning capabilities, the Industrial Ultrasonic Cleaner is well-suited for large scale cleaning tasks. Its high-quality construction and advanced features make it a reliable and efficient choice for industrial environments where large quantities of items need to be cleaned on a regular basis.

Overall, the Industrial Ultrasonic Cleaner is a must-have tool for any industrial setting. Its advanced features, powerful cleaning capabilities, and versatility make it an essential addition to any cleaning process. So why wait? Get your Industrial Ultrasonic Cleaner today and experience the power of ultrasonic cleaning for yourself!

Features:

Product Name: Industrial Ultrasonic Cleaner

Drainage: Yes

Tank Size: 600*500*450mm

Overall dimension: 1200*1100*1000mm

External generator: 2 Units Timer: 1-99 Hours

Advanced Ultrasonic Cleaning System

Automatic frequency chasing ultrasound cleaning

Industrial Sonic Cleaning Device

Technical Parameters:

Product Name	Industrial Ultrasonic Cleaner
Tank Material	SUS 304/316
Heating	Yes
Ultrasonic Power	3600W
Drainage	Yes
Cleaning Basket	SUS 304
Heating Power	4500*2
Manufacturing Time	About 25 Days
Weight	300KG

Tank Size		600*500*450mm
Function		Ultrasonic Cleaning + Rinsing
Product Name	Heavy Duty Industrial Cleaning Ultrasonic System	
Tank Material	SUS 304/316	
Heating	Yes	
Ultrasonic Power	3600W	
Drainage	Yes	
Cleaning Basket	SUS 304	
Heating Power	4500*2	
Manufacturing Time	About 25 Days	
Weight	300KG	
Tank Size	600*500*450mm	
Function	Ultrasonic Cleaning + Rinsing	
Product Name		Industrial Ultrasonic Washer
Tank Material		SUS 304/316
Heating		Yes
Ultrasonic Power		3600W
Drainage		Yes
Cleaning Basket		SUS 304
Heating Power		4500*2
Manufacturing Time		About 25 Days
Weight		300KG
Tank Size		600*500*450mm
Function		Ultrasonic Cleaning + Rinsing

Applications:

Industrial Ultrasonic Cleaner - Skymen JP-2072GH

Brand Name: Skymen Model Number: JP-2072GH Place of Origin: China

Certification: CE FC PSE ISO REACH ROHS PAHS

Minimum Order Quantity: 1

Price: \$4000

Packaging Details: WOODEN BOX Delivery Time: 10-25 days Payment Terms: EXW Supply Ability: 5000pcs/month Tank Size: 600*500*450mm Manufacturing time: About 25 Days

Drainage: Yes

Function: Ultrasonic Cleaning +rinsing

External generator: 2 Units

The Skymen JP-2072GH Industrial Ultrasonic Cleaner is a high-quality and efficient cleaning machine designed for industrial use. It is perfect for DPF ultrasonic cleaning, car engine parts cleaning, and other heavy-duty cleaning tasks.

Application

The Industrial Ultrasonic Cleaner can be used in a variety of industries and applications, such as automotive, aerospace, electronics, medical, and more. It is suitable for cleaning various types of parts and equipment, including DPF filters, engine components, metal parts, plastic parts, and more.

Features

Large Tank Size: The tank size of this cleaner is 600*500*450mm, making it suitable for cleaning large and bulky parts.

Heavy-Duty Cleaning: With its strong ultrasonic power, the cleaner can effectively remove dirt, grease, and other contaminants from parts, even in hard-to-reach areas.

External Generator: The cleaner comes with 2 external generators, providing stable and efficient ultrasonic cleaning performance.

DPF Cleaning: The Industrial Ultrasonic Cleaner is specially designed for DPF ultrasonic cleaning, making it a reliable choice for cleaning diesel particulate filters used in vehicles.

Efficient Rinsing: The cleaner has a built-in rinsing function, allowing for thorough cleaning and rinsing in one machine.

Easy to Use: The cleaner is user-friendly and easy to operate, with simple controls and clear instructions.

Scene

Imagine a busy automotive workshop, where mechanics are working hard to repair and maintain various vehicles. The workshop has a

Skymen JP-2072GH Industrial Ultrasonic Cleaner, which is used to clean and maintain DPF filters and car engine parts. The cleaner is essential in ensuring the vehicles' engines run smoothly and efficiently, reducing emissions and improving performance.

The mechanics simply place the parts into the large tank of the cleaner, add water and a cleaning solution, and turn on the ultrasonic power. The powerful ultrasonic waves quickly and effectively remove any buildup and contaminants from the parts, ensuring they are thoroughly cleaned. The external generators provide stable and consistent cleaning power, while the built-in rinsing function ensures the parts are rinsed and ready to be reinstalled in the vehicles.

The Skymen JP-2072GH Industrial Ultrasonic Cleaner has greatly improved the efficiency and quality of the workshop's operations. It has reduced the time and effort needed for cleaning, allowing the mechanics to focus on other tasks and increasing productivity. The cleaner's heavy-duty performance and reliable results have made it an essential tool in the workshop's operations.

Overall, the Skymen JP-2072GH Industrial Ultrasonic Cleaner is a top-of-the-line product that meets the high demands of industrial cleaning. Its DPF ultrasonic cleaning function, large tank size, and heavy-duty cleaning capabilities make it a valuable asset in various industries and applications. With its efficient and reliable performance, it is sure to be a valuable investment for any business looking for a high-quality and efficient cleaning solution.

Overview

The Industrial Ultrasonic Cleaner from Skymen, model JP-2072GH, is a high-quality and efficient cleaning system designed for industrial use. Made in China, this product has obtained various certifications including CE, FC, PSE, ISO, REACH, ROHS, and PAHS, ensuring its safety and quality. With a minimum order quantity of only 1 unit and a price of \$4000, it is a cost-effective solution for businesses in need of an advanced ultrasonic cleaning system.

This customization service allows customers to tailor the product according to their specific needs. The cleaning mode can be adjusted to use either water or detergent, and 2 external generators are included to ensure thorough and precise cleaning. The ultrasonic power of 3600W makes it suitable for heavy-duty cleaning tasks. The manufacturing time for this product is about 25 days, and it is delivered in a sturdy wooden box to ensure safe transportation.

With our advanced ultrasonic cleaning system, you can achieve a higher level of cleanliness and efficiency in your industrial processes. Contact us today to learn more about our customization options and place your order.

Packing and Shipping:

Packaging and Shipping

The Industrial Ultrasonic Cleaner is packaged in a sturdy cardboard box to ensure safe transportation. The box is designed to withstand rough handling and protect the cleaner from any damage during shipping.

The cleaner is carefully wrapped in bubble wrap to provide an extra layer of protection. The power cord and accessories are placed in a separate compartment to prevent any scratches or damage to the cleaner.

The packaging also includes a user manual and warranty information for the convenience of the customer.

For shipping, the box is sealed with reinforced tape to prevent any tampering. The package is then labeled with the necessary shipping information and barcodes for tracking purposes.

We use reliable and trusted shipping carriers to ensure timely delivery of the Industrial Ultrasonic Cleaner to our customers. The package is insured to protect against any unexpected incidents during transit.

Once the package is shipped, the customer will receive a confirmation email with the tracking number and estimated delivery date.
