

Customizable Frequency Industrial Ultrasonic Cleaner With Heating For Large Items

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: SkyMen
- Certification: CE FC PSE ISO REACH ROHS PAHS
- Model Number: JP-2072GH
- Minimum Order Quantity: 1
- Price: \$4000
- Packaging Details: WOODEN BOX
- Delivery Time: 10-25 days
- Payment Terms: EXW
- Supply Ability: 5000pcs/month

Product Specification

- Tank Size: 600*500*450mm
- Weight: 300KG
- Heating: Yes
- Frequency: 28/40KHZ Optional
- Cleaning Basket: SUS 304
- Capacity: JP-2072GH
- Manufacturing Time: About 25 Days
- Timer: 1-99 Hours
- Highlight: **Customizable Frequency Industrial Ultrasonic Cleaner**
, Industrial Ultrasonic Cleaner for Large Items,
SUS 304 heated ultrasonic parts cleaner

Product Description

Product Description:

Industrial Ultrasonic Cleaner

The Industrial Ultrasonic Cleaner is a high power cleaning equipment specially designed for industrial use. It is perfect for removing tough oil and dirt pollution from various types of materials. With its powerful ultrasonic cleaning technology, this cleaner can effectively clean and degrease even the most hard-to-reach areas, ensuring a thorough and efficient cleaning process.

This industrial cleaner is ideal for industries such as automotive, aerospace, manufacturing, and many more. Its advanced features and durable construction make it a reliable and essential tool for any industrial cleaning operation.

Product Features:

Cleaning Mode: The Industrial Ultrasonic Cleaner offers two cleaning modes: water and detergent. This gives users the flexibility to choose the cleaning method that best suits their specific needs.

Frequency: This cleaner has a frequency of 28/40KHZ, which can be adjusted according to the cleaning requirements. This allows for a more precise and effective cleaning process.

Overall Dimension: The Industrial Ultrasonic Cleaner measures 1200*1100*1000mm, making it compact and easy to move around. It can fit into most industrial cleaning spaces without taking up too much room.

Heating: This cleaner has a built-in heating function that can heat up the cleaning solution to enhance the cleaning process. It can heat up to temperatures of 60°C, providing a powerful and thorough cleaning experience.

Cleaning Basket: The Industrial Ultrasonic Cleaner comes with a SUS 304 cleaning basket that can hold items during the cleaning process. This basket ensures that the items are thoroughly cleaned and prevents them from getting damaged.

With its advanced features and high-quality materials, the Industrial Ultrasonic Cleaner is a reliable and efficient cleaning equipment that can handle tough industrial cleaning tasks with ease. It is the perfect solution for removing oil pollution and achieving spotless and sparkling results.

Choose the Industrial Ultrasonic Cleaner for your industrial cleaning needs and experience the power of ultrasonic cleaning technology.

Skymen Ultrasonic

Skymen ultrasonic, which is a leading manufacturer and national high-tech enterprise, was founded in 2007. We have been focusing on R&D of ultrasonic equipment & cleaning solution for more than 13 years.

There are more than 120 patents & certificates in total. Our products range covers household ultrasonic cleaner, benchtop ultrasonic cleaner, industrial ultrasonic cleaner, customized ultrasonic cleaner etc

Products include CE, FCC, PSE, KC and other safety certification, as well as ROHS, PAHS, REACH, SCCP environmental certification, and passed the ISO9001 and ISO13485 quality management system.

Basic information:

Established in 2007 in Shenzhen, China

Registered capital: 12 million

Plant size: 20,000 M²

Sales office size: 1,500 M²

Number of staff: 200-300

Annual sales volume: 25 million US dollars

ISO International Standard: ISO9001 and ISO13485 quality management system.

Product Name: Industrial Ultrasonic Cleaner
Timer: 1-99 Hours
Temperature: 1-90 Degree
Tank Material: SUS 304/316
Weight: 300KG
Tank Size: 600*500*450mm
Ultrasonic Cleaning Equipment
Advanced Ultrasonic Cleaning System
Large Scale Ultrasonic Cleaner

Product Name:	Industrial Ultrasonic Cleaner
Weight:	300KG
External generator:	2 Units
Certification:	CE, FC, PSE, ROHS, ISO
Tank Size:	600*500*450mm
Manufacturing time:	About 25 Days
Cleaning Basket:	SUS 304
Heating:	Yes

Tank Material:	SUS 304/316
Function:	Ultrasonic Cleaning + Rinsing
Temperature:	1-90 Degree
Key Features:	Large Scale Ultrasonic Cleaner, Industrial Cleaning Ultrasonic System, High Power Ultrasonic Cleaner, Stainless Steel Ultrasonic Cleaner

Applications:

Industrial Ultrasonic Cleaner - Skymen JP-2072GH

Skymen JP-2072GH is a large-scale ultrasonic cleaner designed for industrial use. It is perfect for cleaning large and heavy objects with complex shapes and surfaces. With its advanced technology and superior performance, it has become a popular choice among industries such as manufacturing, automotive, aerospace, and more.

This industrial ultrasonic washer is equipped with an automatic frequency chasing ultrasound cleaning system, which ensures efficient and thorough cleaning of all types of surfaces and materials. Its powerful ultrasonic waves can easily penetrate into the smallest cracks and crevices, removing even the most stubborn dirt, grime, and contaminants.

The Skymen JP-2072GH is a versatile cleaner that can handle a wide range of cleaning tasks. It can be used to clean various objects such as metal parts, plastic components, electronic parts, glassware, ceramics, and more. It is also suitable for cleaning delicate items, as it uses a gentle yet effective cleaning method.

Application Scenarios

The Skymen JP-2072GH is perfect for a variety of industrial cleaning applications, including but not limited to:

Manufacturing plants - for cleaning machine parts, tools, and equipment

Automotive industry - for cleaning engine parts, transmissions, and other components

Aerospace industry - for cleaning aircraft parts, engines, and components

Electronics industry - for cleaning circuit boards, semiconductors, and other electronic components

Pharmaceutical industry - for cleaning laboratory equipment and tools

Food and beverage industry - for cleaning processing equipment and containers

Product Features

The Skymen JP-2072GH is packed with features that make it a top choice for industrial cleaning:

Automatic Frequency Chasing Ultrasound Cleaning: This feature ensures that the ultrasonic waves are always at the optimal frequency, providing efficient and effective cleaning results.

Water & Detergent Cleaning Mode: This cleaner can be used with both water and detergent, allowing for versatility in cleaning different types of surfaces and materials.

Temperature Control: The cleaning temperature can be adjusted from 1-90 degrees, making it suitable for cleaning various objects without causing damage.

Large Capacity: With its overall dimension of 1200*1100*1000mm, this ultrasonic cleaner can accommodate large and heavy objects, making it ideal for industrial use.

External Generator: The Skymen JP-2072GH comes with 2 units of external generators, providing stable and reliable ultrasonic waves for thorough cleaning.

Product Specifications

Brand Name	Skymen
Model Number	JP-2072GH
Place of Origin	China
Certification	CE, FC, PSE, ISO, REACH, ROHS, PAHS
Minimum Order Quantity	1
Price	\$4000
Packaging Details	Wooden Box
Delivery Time	10-25 days
Payment Terms	EXW
Supply Ability	5000pcs/month
Cleaning Mode	Water & Detergent
Temperature	1-90 degrees
Overall Dimension	1200*1100*1000mm
External Generator	2 Units
Capacity	JP-2072GH

In conclusion, the Skymen JP-2072GH is the perfect solution for industrial ultrasonic cleaning. Its advanced features, superior performance, and large capacity make it a valuable asset for any industrial setting. With its affordable price and reliable supply, it is a cost-effective investment for businesses looking to improve their cleaning processes.

Introducing the Skymen Industrial Ultrasonic Cleaner - JP-2072GH. Our advanced ultrasonic cleaning system is designed to provide efficient and thorough cleaning for a variety of industrial applications. With our customized service, we ensure that our ultrasonic cleaner meets your specific cleaning needs.

Equipped with advanced technology, our ultrasonic cleaner is capable of removing oil pollution and other contaminants with ease. It is a reliable and cost-effective solution for maintaining the cleanliness of your industrial equipment.

Our cleaner is proudly made in China and has received certifications including CE, FC, PSE, ISO, REACH, ROHS, and PAHS. We have a minimum order quantity of 1 unit and offer a competitive price of \$4000. The packaging for our cleaner is a sturdy wooden box, ensuring safe delivery.

With a delivery time of 10-25 days, we strive to provide timely service to our customers. Our payment terms are EXW and we have a supply ability of 5000 units per month. The timer can be set for 1-99 hours and the overall dimension of the cleaner is 1200*1100*1000mm. It comes with 2 external generators and the frequency can be set at 28/40KHZ, depending on your requirements. The tank size is 600*500*450mm, providing ample space for your cleaning needs.

Choose the Skymen Industrial Ultrasonic Cleaner for efficient and customized cleaning solutions for your industrial equipment.

Packing and Shipping:

Packaging and Shipping for Industrial Ultrasonic Cleaner

The Industrial Ultrasonic Cleaner is carefully packaged to ensure safe delivery to our customers. Here is a breakdown of the packaging process:

The cleaner is first placed in a sturdy cardboard box to protect it during transportation.

Extra padding is added to the box to prevent any damages from impact.

The box is sealed and labeled with the product name and any necessary handling instructions.

The packaged cleaner is then placed in a larger shipping box with additional padding and protection.

The shipping box is sealed and labeled with the customer's address and any necessary shipping labels.

For international shipments, the Industrial Ultrasonic Cleaner is also packaged in compliance with all relevant customs regulations and requirements.

We offer various shipping options to meet our customers' needs, including standard ground shipping, expedited shipping, and international shipping. The shipping cost will be calculated based on the customer's location and selected shipping method.

Once the shipment is processed, customers will receive a shipping confirmation email with a tracking number to monitor the delivery status of their package.

At our company, we take great care in packaging and shipping our products to ensure they arrive in perfect condition. We are committed to providing the best customer experience possible.
