

9000W Industrial Ultrasonic Cleaner With Stainless Steel Basket 360L Capacity CE/ RoHS Certified

Our Product Introduction

Basic Information

- Place of Origin: China
- Brand Name: Skymen
- Certification: CE FC PSE ISO REACH ROHS PAHS
- Model Number: JP-720ST
- Minimum Order Quantity: 1
- Price: \$4000
- Packaging Details: WOODEN BOX
- Delivery Time: 10-25 days
- Payment Terms: EXW
- Supply Ability: 5000pcs/month

Product Specification

- Sus Basket: Stainless Steel Basket
- Heating Power: 9000W
- Cerification: CE ,Rohs,ISO9001
- Tank Size: 1000*600*600
- Model: JP-720ST
- Warranty: 1 Year
- Capacity: 360L
- Ultrasonic Power: 3600W
- Highlight: **Stainless Steel Basket Industrial Ultrasonic Cleaner**
, CE Industrial Ultrasonic Cleaner,
360L Industrial Ultrasonic Cleaner

Product Description

Product Description:

The JP-720ST has been certified by CE, Rohs, and ISO9001, ensuring that it meets all international safety and quality standards. This gives customers peace of mind knowing that they are purchasing a high-quality product that has been tested and approved. This powerful ultrasonic cleaner is perfect for removing oil pollution and other tough contaminants from large items. Its advanced cleaning technology uses high-frequency sound waves to create tiny bubbles that penetrate deep into the surface of the items being cleaned. This process effectively removes dirt, grime, and other contaminants, leaving items looking like new. In addition to its powerful cleaning abilities, the JP-720ST also comes with a 1-year warranty. This ensures that customers are protected from any defects or malfunctions that may occur during the first year of use. Overall, the JP-720ST Industrial Ultrasonic Cleaner is a reliable and effective machine that is perfect for heavy-duty cleaning tasks. Its large capacity, advanced cleaning technology, and certification by CE, Rohs, and ISO9001 make it a top choice for industrial customers looking for a quality ultrasonic cleaner.

Applications:

The JP-720ST model is equipped with a heating power of 9000W and an ultrasonic power of 3600W. The heater is adjustable from 20-95°C, making it suitable for cleaning various types of objects. The product comes with a warranty of 1 year. The Industrial Ultrasonic Cleaner is an effective solution for cleaning car engine parts, metal parts, plastic parts, and other industrial components. The ultrasonic cleaning technology uses high-frequency sound waves to agitate the cleaning solution, creating small bubbles that penetrate and remove dirt and grime from the surface of the object. The JP-720ST model is designed for cleaning large and heavy objects, making it suitable for use in automotive, aerospace, and manufacturing industries. It is an ideal car engine parts cleaning machine that can effectively remove oil, grease, and other contaminants from engine parts, transmission parts, and other components. The product is also suitable for cleaning medical equipment, jewelry, electronic parts, and other delicate objects. It is a versatile cleaning solution that can be used in various industrial and commercial applications.

Customization:

Support and Services:

The Industrial Ultrasonic Cleaner comes with comprehensive technical support and services to ensure optimal performance and uptime. Our team of experts is available to assist with installation, training, maintenance, and troubleshooting. We also offer repair and calibration services to keep your equipment running smoothly. Additionally, we provide regular software updates and access to online resources such as user manuals and FAQs. Our goal is to provide our customers with the highest level of support throughout the entire product lifecycle.

Packing and Shipping:

Product Packaging:

- 1 x Industrial Ultrasonic Cleaner
- 1 x Cleaning Basket
- 1 x Power Cord
- 1 x User Manual

Shipping:

Shipping Method: Standard Shipping
Estimated Delivery Time: 5-7 business days
Shipping Cost: Free
