

## 78L JP-240ST SUS304 Industrial Ultrasonic Cleaner for Quick Remove Solder Pastes and Fast Shipping

Our Product Introduction

for more products please visit us on [skymenultrasonic.com](http://skymenultrasonic.com)

### Basic Information

- Certification: CE, RoHS
- Minimum Order Quantity: 1
- Price: 1000

### Product Specification

- Model NO.: JP-240ST
- Automation: Manual
- Cleaning Precision: Ultra-Precision Industrial Cleaning
- Control: Artificial
- Principle: Physical And Chemical Cleaning
- Material: SUS304
- Specification: 410\*255\*310mm
- Production Capacity: 1000PCS/Month
- Tank Capacity: 53L With Roller
- Frequency: 40,000Hz
- Timer: 1-99 Mins
- Tank Size: 550\*400\*350mm
- Unit Size: 730\*580\*770mm
- Ultrasonic Power: 480W~1200W
- Heating Power: 3000W

## Product Description

### Quick Remove Solder Pastes Fast Shipping 78L Stencil Ultrasonic Cleaner

#### Product Overview

This ultrasonic cleaner provides an effective solution for stencil cleaning using high-frequency ultrasonic waves to remove solder pastes and uncured SMT adhesives at a molecular level.

#### Why Choose Ultrasonic Cleaning?

- Utilizes ultrasonic waves (over 20KHz) to create cavitation in liquid
- Generates millions of bubbles that remove contaminants at molecular level
- Provides uniform cleaning intensity in all directions
- Effectively removes solder pastes and uncured SMT adhesives

#### Cleaning Process

- Fill tank with appropriate cleaning solution and activate heating
- Ensure stencil is fully submerged without air pockets
- Activate ultrasonic cleaning system
- Remove stencil after cycle completion
- Rinse thoroughly with clean water
- Dry using evaporation, air-drying, or forced hot air

#### Versatile Applications

| Electronics/Electricals                                   | Watch & Jewelry                                   | Pharmaceuticals                                     |
|-----------------------------------------------------------|---------------------------------------------------|-----------------------------------------------------|
| PCBs, electronic assemblies, opto-electronics, switchgear | Watches, metal straps, jewelry, precious articles | Degassing solvents, tablet dissolution, drug mixing |
| Healthcare/Scientific                                     | Defense/Industrial                                | General Industries                                  |
| Surgical instruments, dental tools, lab glassware         | Aircraft components, ship parts, machinery        | Machine parts, kitchen equipment, solar cells       |

#### Drainage System

The 78L ultrasonic cleaner features a convenient SUS304 stainless steel drainage system for easy water removal without lifting the heavy unit.

#### Technical Specifications

|                                                    |                 |               |               |
|----------------------------------------------------|-----------------|---------------|---------------|
| Model                                              | JP-240ST        | Frequency     | 40,000Hz      |
| Tank Capacity                                      | 53L with Roller | Timer         | 1-99 mins     |
| Tank Size                                          | 550×400×350mm   | Unit Size     | 730×580×770mm |
| Ultrasonic Power                                   | 480W~1200W      | Heating Power | 3000W         |
| Packing                                            | Wood case       | Gross Weight  | 95kg          |
| Power Supply: AC 100~120V, 60Hz; AC 220~240V, 50Hz |                 |               |               |

#### Packing Information

#### Company Advantages

- 10+ years industry experience
- Global distribution network
- Certifications: ISO, CE, RoHS, FCC, Medical Instrument Approval

### Custom Solutions Available

---

We offer customized ultrasonic cleaning solutions for special requirements and provide larger capacity models as needed.
