

78L SUS304 Industrial Ultrasonic Cleaner with 410x255x310mm Tank for Fast Contaminant Removal

Our Product Introduction

for more products please visit us on skymenultrasonic.com

Basic Information

- Certification: CE, RoHS
- Minimum Order Quantity: 1
- Price: 1000

Product Specification

- Model NO.: JP-240ST
- Automation: Manual
- Cleaning Precision: Ultra-Precision Industrial Cleaning
- Control: Artificial
- Principle: Physical And Chemical Cleaning
- Material: SUS304
- Specification: 410*255*310mm
- Tank Capacity: 53L With Roller
- Frequency: 40,000Hz
- Timer: 1-99 Mins
- Tank Size: 550*400*350mm
- Unit Size: 730*580*770mm
- Ultrasonic Power: 480W~1200W
- Heating Power: 3000W
- Gross Weight: 95kg

Product Description

Fast Remove Contaminant Non Toxic 78L Pallet Ultrasonic Bath

Why Choose a Pallet Ultrasonic Cleaner?

Ultrasonic cleaning is the most effective method for pallet cleaning. Our ultrasonic cleaner uses high-frequency waves (over 20KHz) to create cavitation in liquid, generating millions of microscopic bubbles that remove contaminants at a molecular level, including solder pastes and uncured SMT adhesives. This method provides uniform cleaning intensity in all directions.

How To Clean Stencils

- Fill the tank with appropriate cleaning solution and activate heating
- Ensure the stencil is fully submerged without air pockets
- Activate ultrasonic energy
- Remove stencil after cycle completion and ensure complete drainage
- Rinse thoroughly with clean water
- Dry using evaporation, air-drying, or forced hot air

Versatile Applications

This ultrasonic cleaning tank is suitable for various components including brass parts, medical instruments, and industrial components, effectively removing oil, dust, rust, carbon, and other contaminants.

Electronics/Electricals: PCB assemblies, opto-electronics, switchgear, armatures

Watch and Jewelry: Timepieces, watch cases, jewelry, diamonds

Pharmaceuticals: Degassing solvents, tablet dissolution, drug mixing

Healthcare/Scientific: Surgical instruments, dental tools, lab glassware

Defense/Aerospace: Military components, aircraft parts, naval equipment

General Industries: Machine parts, filters, kitchen equipment, solar cells

Convenient Drainage System

The 78L ultrasonic cleaner features a built-in SUS304 stainless steel drainage system for easy water removal without lifting the heavy unit.

JP-240ST Specifications

Model	JP-240ST	Frequency	40,000Hz
Tank capacity	53L with Roller	Timer	1-99 mins
Tank size	550×400×350mm	Unit size	730×580×770mm
Ultrasonic power	480W~1200W	Heating power	3000W
Power supply	AC 100-120V, 60Hz; AC 220-240V, 50Hz		
Packing	Wood case	Gross weight	95kg

Custom Solutions Available

If this tank size doesn't meet your requirements, we offer larger ultrasonic cleaning tanks and can design custom machines with special functions.

Skymen Advantage

With 10 years of industry experience, we supply ultrasonic cleaning machines worldwide. Our products meet ISO, CE, RoHS, FCC, and National Medical Instrument standards.
