

Skymen Industrial Ultrasonic Cleaner for Cleaning Engine Car Parts Fuel Injector Ship Accessories

Our Product Introduction

for more products please visit us on skymenultrasonic.com

Basic Information

- Certification: CE, RoHS, FCC
- Minimum Order Quantity: 1
- Price: 3500

Product Specification

- Model NO.: JP-720ST
- Automation: Semi-automatic
- Cleaning Precision: General Industrial Cleaning
- Control: Button
- Principle: Chemical Cleaning
- Ultrasonic Frequency: 40KHz / 28KHz
- Material: Stainless Steel SUS304
- Tank Capacity: 360 Liter
- Transducer: 72pcs
- Timer: 1-99Hours Adjustable
- Heater: 20°C To 95°C Adjustable
- Power Supply: AC380V, 3 Phase/60Hz
- Heating Power: 24000W
- Ultrasonic Power: 3600W
- Tank Size: 1000x600x600mm

Product Description

Skymen Industrial Ultrasonic Cleaner for Engine Parts & Marine Accessories

Technical Specifications

Ultrasonic Frequency	40KHz / 28KHz
Material	Stainless Steel SUS304
Tank Capacity	360 Liter
Transducer	72pcs
Timer	1-99 Hours adjustable
Heater	20°C to 95°C adjustable
Power Supply	AC380V, 3 phase/60Hz
Heating Power	24000W
Ultrasonic Power	3600W
Generator	2pcs
Ultrasonic Transducer Box	4pcs
Tank Size (LxWxH)	1000x600x600mm
Warranty	1 year

Skymen ultrasonic cleaner mobility features

Product Features

Stainless steel tank construction for exceptional wear resistance and extended service life

360-liter tank capacity suitable for industrial-scale cleaning operations

Includes stainless steel basket for organized part handling

Compatible with tap water, industrial alcohol, and specialized solvent cleaners

Industrial-grade microcontroller with flexible circuit board control for enhanced security and stability

Complete system includes drainage, basket, lid, and multi-directional castors for mobility

High-quality Korean transducer technology

Proprietary PCB board designed and manufactured by Skymen

Effective for cleaning cast iron, steel, stainless steel, brass, and bronze materials

Manufacturer Profile

Skymen manufacturing facility

Skymen quality control process

Frequently Asked Questions

What are the advantages of Skymen ultrasonic cleaners?

Skymen ultrasonic cleaners provide thorough cleaning without damaging objects. They effectively remove stubborn dirt and contaminants from various components, restoring them to like-new condition. The systems are safe, easy to operate, and designed for industrial reliability.

How often should I change the cleaning fluid?

Replace the cleaning fluid when it becomes visibly contaminated or when cleaning effectiveness decreases.

Why is a basket included with the system?

The basket helps organize multiple objects during cleaning and improves overall cleaning effectiveness.

Can ultrasonic cleaning damage parts?

Despite the powerful cleaning action of thousands of implosions per second, the process is safe and will not damage properly handled industrial components.

What warranty coverage is provided?

Skymen ultrasonic cleaners include a 1-year warranty. During this period, replacement parts are provided free of charge for technical issues. Technical support remains available after the warranty period.
