

Skymen Ultrasonic Cleaner with 38L Capacity for Cleaning Fuel Injector

Our Product Introduction

for more products please visit us on skymenultrasonic.com

Basic Information

- Certification: CE, RoHS, FCC
- Minimum Order Quantity: 1
- Price: 735

Product Specification

- Model NO.: JP-120ST
- Automation: Semi-automatic
- Cleaning Precision: General Industrial Cleaning
- Control: Button
- Principle: Chemical Cleaning
- Tank Capacity: 53Liter
- Tank Material: Stainless Steel
- Basket Material: Stainless Steel
- Transducer: Korea Technique
- PCB Board: Independent R&D
- Drainage: Yes
- Lid: Yes
- Castors: Multi-direction
- Dimensions: 500× 300× 250mm
- Production Capacity: 500

Product Description

Skyemen Ultrasonic Cleaner with 38L Capacity for Cleaning Fuel Injector

Product Gallery

Product Overview

Industrial-grade ultrasonic cleaning system designed for professional applications including fuel injector cleaning.

- Durable stainless steel tank construction for extended service life
- Generous 38L tank capacity for handling multiple components
- Includes stainless steel basket for organized component loading
- Compatible with tap water, industrial alcohol, and specialized solvent cleaners
- Advanced industrial control chip microcontroller for precise operation
- Flexible circuit board control system for enhanced security and stability
- Convenient features: drainage system, basket, lid, and multi-direction castors
- High-performance Korean transducer technology
- Custom PCB board designed and manufactured by Skyemen
- Versatile applications: suitable for cleaning cast iron, steel, stainless steel, brass, and bronze components

Manufacturer Profile

Frequently Asked Questions

What's the advantage of Skyemen ultrasonic cleaner?

Skyemen ultrasonic cleaner provides thorough cleaning without damaging objects. It effectively removes stubborn dirt and dust from watches, eyeglasses, jewelry, and industrial components, restoring them to like-new condition. The system is safe and easy to operate, making it an essential tool for both home and professional use.

How often should I change the cleaning fluid in my tank?

Change the cleaning fluid whenever it becomes visibly contaminated or when cleaning effectiveness decreases.

Why do I need to use a basket?

The basket helps organize multiple objects during cleaning and enhances cleaning effectiveness by ensuring proper ultrasonic exposure.

Can ultrasonic cleaning damage parts?

Although ultrasonic cleaning generates thousands of implosions per second, the process is safe and will not damage properly handled components.

What about the warranty?

Skyemen ultrasonic cleaners come with a 1-year warranty. During the warranty period, replacement parts are provided free of charge for any technical issues. Technical support remains available after the warranty period expires.
