

Skymen 1920L Jp-1288st High Power Ultrasonic Cleaner for Boilers

Our Product Introduction

for more products please visit us on skymenultrasonic.com

Basic Information

- Certification: CE, RoHS, FCC
- Minimum Order Quantity: 1
- Price: 11531

Product Specification

- Model NO.: JP-1288st
- Cleaning Media: Wet Cleaning
- Automation: Semi-automatic
- Cleaning Precision: Ultra-Precision Industrial Cleaning
- Control: CNC
- Principle: Physical Cleaning
- Frequency: 40kHz/28kHz
- Power: 0-14400W
- Heating Power: 36000W
- Net Weight: 1100kg
- Gross Weight: 1200kg
- Capacity: 1920L
- Tank Size: 2000*1200*800mm
- Unit Size: 2400*1650*1300 Mm
- Material: Stainless Steel SUS304

Product Description

Skymen 1920L JP-1288ST High Power Ultrasonic Cleaner for Boilers

Professional-grade industrial ultrasonic cleaning system designed for heavy-duty applications including boilers, heat exchangers, and large industrial components.

Key Features

- Super high power up to 14,400W with adjustable output from 0W to meet specific cleaning requirements
- Durable stainless steel tank construction for wear resistance and extended service life
- Large 1920L (507 gallon) capacity with digital timer and heater control
- Includes stainless steel basket for convenient part handling
- Compatible with tap water, industrial alcohol, and solvent cleaners for various cleaning needs
- Industrial-grade control chip microcontroller with flexible circuit boards for secure and stable operation
- Adjustable temperature range from 20°C to 95°C
- Dual frequency selection: 28KHz/40KHz
- Programmable timer from 0 to 99 hours

Industrial Applications

Professionally applied in automotive workshops, diesel repair shops, plating factories, electronics manufacturing facilities, molding operations, tattoo studios, scientific and biochemical laboratories, hospitals, dental clinics, jewelry stores, antique restoration, golf club maintenance, and various industrial cleaning applications.

Technical Specifications

Material	Stainless Steel SUS304
Timer	1-30 minutes, digital timer
Power Supply	AC 100-120V, 50/60Hz AC 220-240V, 50/60Hz

Packing & Delivery

Company Profile

Skymen Cleaning Equipment Shenzhen Co. Ltd. has specialized in ultrasonic cleaning technology for over 13 years. Our comprehensive product range includes mini household ultrasonic cleaners, benchtop stainless steel units, industrial large tank systems, and immersible ultrasonic transducer systems. We maintain strong engineering teams dedicated to research and development, and we welcome customer collaboration for new product development.

Frequently Asked Questions

How about after sales services?

12 months warranty for SKYMEN ultrasonic cleaners. Any technical problems during the warranty period receive free replacement parts delivered to your location. Technical support remains available after the first year.

What are advantages of ultrasound over traditional cleaning methods?

- Minimizes manual labor requirements
- Enables cleaning and degreasing without organic solvents
- Reaches every area of products and removes all types of dirt
- Shortens processes such as extraction, dispersion, purification, and chemical reactions

Eliminates costly mechanical and chemical cleaning of heat exchangers

Will ultrasonic cleaning damage item's parts?

Ultrasonic cleaning is considered safe for most components. In some cases, careful observation is recommended. While the effect of thousands of implosions per second is powerful, the cleaning process is generally safe for industrial applications.
