

Ultrasonic Cleaning Tank for Industrial Metal Parts Washing Machine

Basic Information

- Certification: CE, RoHS
- Minimum Order Quantity: 1
- Price: 700

Product Specification

- Ultrasonic Power: 360W ~ 900W
- Tank Size: 500 X 350 X 300
- Tank Capacity: 38L
- Material: Stainless Steel 304
- Power Supply: 110/220V
- Frequency: 40kHz
- Timer: 1-30min, Mechanical Timer
- Working Life: 3~8years
- Voltage: AV 110V-220V
- Unit Size: 680*530*700mm
- Power: 360-900W Adjustable
- Heater: 0 ~80°C Adjustable
- Ultrasonic Frequency: 40KHz
- Control: Mechanical
- Automation: Automatic

Product Description

Ultrasonic Cleaning Tank for Industrial Metal Parts Washing Machine

This microprocessor-controlled ultrasonic cleaner utilizes high-frequency sound waves to deliver superior cleaning performance for industrial applications. The cavitation effect created by ultrasonic vibrations generates microscopic bubbles that penetrate even the smallest crevices, ensuring thorough and consistent cleaning results.

Advanced Technology & Efficiency

Ten sets of built-in powerful transducers enhance ultrasonic power for superior cleaning outcomes. Digital program control allows customized working cycles based on item quantity and condition, making it more efficient than manual washing, steam cleaning, or high-pressure water jet methods.

Durable Construction

Advanced brushed stainless steel cleaning tank resists corrosion and water stains, maintaining a like-new appearance over time. Unlike common stainless steel tanks that develop yellow corrosion stains, this design ensures long-lasting performance and easy maintenance.

Technical Specifications

Working Life	3-8 years
Voltage	AV 110V-220V
Tank Size	500×350×300mm
Unit Size	680×530×700mm
Power	360-900W adjustable
Heater	0-80°C adjustable
Timer	1-99min adjustable
Ultrasonic Frequency	40KHz
Application	Auto parts cleaning
Certification	CE, RoHS
Warranty	1 year
Function	Remove oil, grease, dust
MOQ	1 Piece
Port	Shenzhen

Product Features

- Stainless steel tank with excellent wear resistance and long working life
- 53L (14 gallon) tank capacity with digital timer and heater control
- Includes stainless steel basket for convenient part handling
- Compatible with tap water, industrial alcohol, and solvent cleaners
- Industrial control chip microcontroller with flexible circuit boards for secure and stable operation
- Integrated drainage system for easy maintenance

Applications

Professional Applications

- Medical and Dental Clinics
- Tattoo Shops and Scientific Labs
- Jewelers, Opticians, and Watchmakers
- Electronics Workshops and Antique Dealers
- Golf Clubs and Research Facilities

Industrial Applications

- Jewelry Industry and Medical Industry

Electronic Factories and Molding Facilities
Automotive Workshops and Diesel Repair Shops
Scientific Laboratories and Universities
Hardware Tools Shops and Manufacturing Plants

Personal & Home Applications

Jewelry: Earrings, necklaces, rings, bracelets, diamonds
Glasses and Timepieces: Optical lenses, sunglasses, watch chains
Commodities: Tattoo equipment, shaver heads, razor blades, dentures
Stationery: Pen heads, printer heads, inkjet cartridges
Metal Articles: Valves, machine nozzles, electronics components
Metal Dishware: Forks, knives, spoons, and silverware
