

## High Efficiency Ultrasonic Cleaning Machine for Coating Process with Customer Feedback

Our Product Introduction

for more products please visit us on [skymenultrasonic.com](http://skymenultrasonic.com)

### Basic Information

- Minimum Order Quantity: 1
- Price: 2000

### Product Specification

- Model: JTS-1072(digital,power Adjustable)
- Tank Size: Customizing
- Ultrasonic Power: 1440W~3600W
- Heating Power: 12KW
- Timer: 1~99min Adjustable
- Heater: 20~80C Adjustable
- Frequency: 28,000Hz
- Tank Capacity: 400L
- Power Adjustable: 40%-100%
- Lift Up Function: Designable
- Filter System: Designable
- Unit Size: Pending
- Box Packing: Pending
- G.W.: Pending
- Delivery Time: 20days After Payment

## Product Description

### High Efficiency Ultrasonic Cleaning Machine for Coating Process

Ultrasonic cleaning prior to plating or coating your parts provides significant cost savings in time and labor by eliminating manual scrubbing and lengthy soak times. Our ultrasonic cleaning machines thoroughly and quickly remove buffing compound, shop dirt, and other soils from a variety of metal and plastic items. The technology reaches crevices, blind holes, and other hard-to-reach places, resulting in cleaner parts for better adhesion and improved finished product quality.

### Technical Specifications

<b>Model</b>	JTS-1072 (digital, power adjustable)
<b>Tank Size</b>	Customizing
<b>Ultrasonic Power</b>	1440W~3600W
<b>Heating Power</b>	12KW
<b>Timer</b>	1~99min adjustable
<b>Heater Temperature</b>	20~80°C adjustable
<b>Frequency</b>	28,000Hz
<b>Tank Capacity</b>	400L
<b>Power Adjustable Range</b>	40%-100%

### Digital Control Panel

### Key Features

- Large capacity for high-volume cleaning operations
- Optional lift-up function for heavy coating parts
- Optional filter system for cleaning solution recycling
- Power adjustable function for optimal cleaning conditions

### Lift-Up Function

For heavy coating parts that are difficult to handle manually, we offer an optional automatic lift-up function to simplify the loading and unloading process.

### Filter System

The optional filter system enables recycling of cleaning solutions while reducing secondary environmental pollution.

### Packaging and Delivery

All machines are packed in standard wooden cases for safe shipping. Delivery is completed within 20 days after payment confirmation.

### Company Profile

Skymen has been a leading manufacturer of ultrasonic cleaning equipment for over 10 years. We offer a comprehensive range of specifications and types of ultrasonic cleaners, with products sold throughout North America, Europe, and Asia. Our product line includes household ultrasonic cleaners, desktop cleaning machines, medical ultrasonic cleaners, electronic ironware cleaning machines, jewelry ultrasonic cleaners, and ultrasonic vibration plates. We also provide custom services to meet specific customer requirements. Our headquarters is located in Hong Kong

with manufacturing facilities in Shenzhen, China.
