

Skymen Ultrasonic Cleaner with 38L Capacity for Cleaning Fuel Injector

Basic Information

- Minimum Order Quantity: 1
- Price: 529

Product Specification

- Tank Capacity: 53Liter
- Tank Material: Stainless Steel
- Includes Basket: Stainless Steel Basket
- Fluid Options: Tap Water, Industrial Alcohol, Solvent Cleaner
- Control System: Industrial Control Chip Microcontroller
- Circuit Board: Flexible Circuit Boards
- Additional Features: Drainage, Basket, Lid, Multi-direction Castors
- Transducer Technology: Korea Technique
- PCB Board: Independent Research And Development Design
- Compatible Materials: Cast Iron, Steel, Stainless Steel, Brass, Bronze
- Highlight: **Skymen Ultrasonic Cleaner 38L, Ultrasonic Cleaner for Fuel Injector, Industrial Ultrasonic Cleaner with Warranty**

Product Overview

Industrial-grade ultrasonic cleaner engineered for professional applications and demanding cleaning requirements.

- Durable stainless steel tank construction for wear resistance and extended service life
- Generous 53-liter tank capacity for handling multiple components
- Includes stainless steel basket for organized loading and optimal cleaning results
- Versatile cleaning fluid compatibility: tap water, industrial alcohol, or specialized solvent cleaners
- Advanced industrial control chip microcontroller with flexible circuit board design for secure and stable operation
- Convenient features: drainage system, basket, lid, and multi-directional castors for mobility
- High-quality Korean transducer technology
- Custom PCB board independently researched, developed, and manufactured by Skyman
- Compatible with various materials including cast iron, steel, stainless steel, brass, and bronze

Manufacturer Profile

Skyman - Professional manufacturer of industrial cleaning equipment with expertise in ultrasonic technology.

Frequently Asked Questions

What's the advantage of Skyman ultrasonic cleaner?

Skyman ultrasonic cleaner provides thorough cleaning without damaging objects. It effectively removes stubborn dirt and dust from watches, eyeglasses, jewelry, and industrial components, restoring them to like-new condition. The system is safe, easy to operate, and serves as an essential tool for both home and industrial applications.

How often should I change the cleaning fluid in my tank?

Change the cleaning fluid whenever it becomes visibly contaminated or when cleaning effectiveness decreases.

Why do I need to use a basket?

The basket helps organize multiple objects during loading and enhances cleaning effectiveness by ensuring proper exposure to ultrasonic waves.

Can ultrasonic cleaning damage parts?

Despite the powerful effect of thousands of implosions per second, the ultrasonic cleaning process is safe and will not damage your components or daily objects.

What about the warranty?

Skyman ultrasonic cleaners come with a 1-year warranty. During the warranty period, replacement parts will be provided free of charge for any technical problems. Technical support remains available after the warranty period expires.
