Dual Stage Ultrasonic Cleaning Machine with Roller for Efficient Industrial Cleaning

Our Product Introduction

Basic Information

- Place of Origin: Guangdong
- Brand Name: Skymen
- Certification: CE RoHS MDR EMC LVD EN 60335
- Model Number: JTM-2144GS (360L without agitator system)
- Minimum Order Quantity: 1 Unit/Units
- Price: 9968US

Product Specification

- Model NO.: JTM-2144GS
- Material: Stainless Steel
- Frequency: 28/40KHz
- Capacity: 38-1500L
- Inner Tank Size: Custom
- Transducer: 24-432
- Ultrasonic Power: 0-21600w
- Heating Power: 1500-27000w
- Timer: 0-99H
- Temperature Control: Room Temp - 95
- Highlight: **Dual Stage Ultrasonic Cleaning Machine**, **Ultrasonic Cleaner with Roller**, **Semi-Automatic Industrial Ultrasonic Cleaner**

Our Produc

Product Description

Dual-Stage Ultrasonic Cleaning with Transfer Roller System

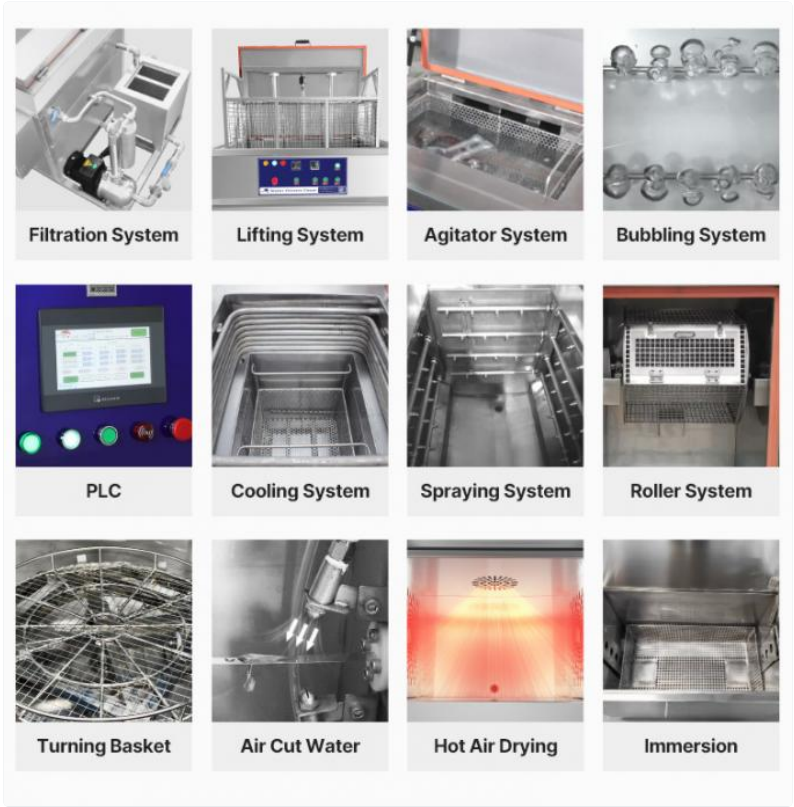

This dual-stage ultrasonic cleaning machine integrates a transfer roller system to deliver smooth material movement and uniform, efficient cleaning results across demanding industrial workflows.

for more products please visit us on skymenultrasonic.com

- ✔ Scientifically engineered overall layout for optimized cleaning performance
- ✔ Facilitates convenient workpiece loading and unloading
- ✔ Simplifies maintenance of piping and electrical systems
- ✔ Saves valuable workshop floor space

Customized Configurations

Industrial Applications

Hardware Components
Mechanical Parts
Bearings
Engine Blocks
Cylinder Heads

Target Industries

Engine Rebuilders
Maintenance Workshops
Used Auto Parts Dealers
End-of-Life Dismantlers

Technical Parameter

Model	Frequency (kHz)	Capacity (L)	Inner Tank Size(mm)	Transducer	Ultrasonic Power(W)	Heating Power(W)	Timer(H)	Temperature Control(℃)
JTM-2024GS	28/40	38	500*300*250	24	0-1200	1500	0-99	RT-95
JTM-2036GS	28/40	53	500*350*300	36	0-1800	1500	0-99	RT-95
